Other useful information

Departures are planned for the 1st year of Master's degree in 2023/24. Students must follow the courses of the 1st year at CNU, which are taught entirely in Chinese language. The path includes an internship and a thesis.

Upon arrival at CNU, students are required to take an entrance test to determine their language proficiency. Depending on the test result, students may need to take an additional Chinese language course.

In the 2nd year, students shall complete the programme at Ca' Foscari, including the thesis defense.

After the 2nd year, students must go back to CNU to defend the thesis, in order to earn the degree. The thesis must be written and presented in Chinese. It may be possible to defend the thesis online.

Participants are offered financial support by the Beijing Municipal Authority ("Beijing Municipal Foreign Students Scholarship") in the form of exemption from paying fees at the foreign University.

If a student breaks the laws of the People's Republic of China or the regulations of the host University, the CNU International Students Office reserves the right not to grant the support and the student will have to pay the fees at CNU. Should the student fail to pass one or more profit exams, CNU may charge an extra fee. Should the Beijing Municipal Authority, for reasons not depending on the University of origin, stop issuing the support, students undertake to pay the enrolment fees at both universities.

The support paid by the Municipality of Beijing does not cover the administrative costs of submission of the application and registration with CNU, of approximately 800 RMB due by the participants upon arrival at CNU.
