Art. 4 ***Evaluation and Selection***

A commission, will be appointed pursuant to University Regulations art. 3 par. 7 to evaluate applications. The commission's task will be to verify candidates' scientific and professional qualifications. All evaluations will include a reasoned appraisal of the candidate's scientific and professional qualifications which will be used to compile a ranking.

The evaluation will refer to the teaching activities to be carried out and to the specific teaching duties required. The Commission will, after defining the criteria and evaluation parameters, take the following into account:

- Research activity that has been carried out;
- Candidates' teaching experience and, in particular, of any teaching activities in English language, of any teaching activities previously carried out at the University and of the teaching methods used;
- Publications and other scientific and educational qualification
- Candidates' overall curriculum.

The Commission will proceed as follows:

1. define the evaluation criteria and parameters;
2. verify candidates satisfy participation requirements;
3. evaluate candidates' applications;
4. identify eligible candidates. Among these, the most eligible will be indicated and ranked in decreasing order according to the scores achieved; and,
5. propose the conferment of posts. The proposal will be submitted to the International College Teaching Committee at their first available session.

The possession of a PhD, medical specialization or equivalent degrees obtained abroad as qualifications, as well as the scientific qualifications referred to in art. 16 of L. 240/2010, constitute, in cases of equal assessment, preferential qualifications for the conferment of the post, exception being made for members of qualified university teaching ranks.

In case of further equal ranking, preference will be given to the younger candidate. At the end of the evaluation, the Commission will explicitly indicate the winning candidate, drafting a merit list that will remain valid until the end of the academic year included in this call for proposals, and which can be used by the College for future teaching needs.

This ranking may be referred to again but only within the Call's academic year of reference. Candidates declining a post will be substituted by the next candidate on the ranking. In this case, the candidate will maintain their position in the ranking so that they may be called should the ranking be referred to again.

The ranking and conferment will be published on the University website at www.unive.it>ateneo> lavora con noi > bandi di insegnamento > Collegio Internazionale Ca' Foscari > **Bandi di docenza** > Graduatoria within 30 days of Ca' Foscari International College Board approval. To all purposes, said publication will act as official notification of the results.
