

# Holding an Event at the Auditorium Santa Margherita – Emanuele Severino

**The Auditorium is a bit different from other venues,  
and there are a few things you need to know about using it.**

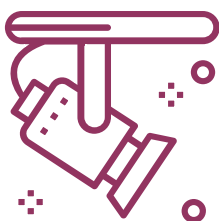

1.

## **CATERING**

Sorry, but you can't bring any food or drinks into the Auditorium itself, and catering isn't permitted inside either. However, for a very small number of people, it might be possible to organise a quick break with some refreshments in the foyer only, but this is only for specific situations and must be arranged in advance.

2.

## **Services**

The Auditorium is a spacious venue with a high capacity and a fully equipped control room. Therefore, it is mandatory to have technical support and an emergency team available during your event.

3.

## **Opening and Closing**

The Auditorium is a standalone building and isn't always staffed. Therefore, we will need to organise the opening and closing times specifically for your event, based on your requirements. Please bear this in mind when planning set-up and deliveries, too.

4.

## **Features of the venue**

The Auditorium is perfect for film screenings, conferences, and concerts. However, excessively loud music is not permitted. The frescoes and the building structure are quite fragile and could easily be damaged.
