# Mathematical Methods in Economics and Finance

**Editor-in-Chief:**
Marco Corazza

**Special Issue on:**
Fractional and multifractional models and methods in finance

**Guest Editor:**
Sergio Bianchi

**Managing Director:**
Paola Ferretti

**Editorial Board:**
Diana Barro, Giovanni Fasano, Stefania Funari, Martina Nardon

**Advisory Board:**
Anna Rita Bacinello, Trieste (I)
Antonella Basso, Venezia (I)
Sergio Bianchi, Cassino (I)
Marta Cardin, Venezia (I)
Marco Corazza, Venezia (I)
Emilia Di Lorenzo, Napoli (I)
Andrea Ellero, Venezia (I)
Paola Ferretti, Venezia (I)
Silvio Giove, Venezia (I)
Anastasios G. Malliaris, Chicago (USA)
Graziella Pacelli, Ancona (I)
Paolo Pellizzari, Venezia (I)
Raffaele Pesenti (I)
Paolo Pianca, Venezia (I)
Marilena Sibillo, Salerno (I)
Bruno Viscolani, Padova (I)
William T. Ziemba, Vancouver (CDN)

# Contents

**Preface** ..... I
*Sergio Bianchi*

**Wavelet series representation for multifractional multistable Riemann-Liouville process** ..... 1
*Antoine Ayache, and Julien Hamonier*

**A study of Chinese market efficiency, Shanghai versus Shenzhen: Evidence based on multifractional models** ..... 19
*Pierre R. Bertrand, Marie-Eliette Dury, and Bing Xiao*

**The volume-volatility relationship: A fractal analysis for a stock index** ..... 37
*Massimiliano Frezza*

**Fractal analysis of the multifractality of foreign exchange rates** ... 49
*Matthieu Garcin*

**The origins of randomness: Granularity, information and speed of convergence** ..... 77
*Charles S. Tapiero, Pierre Vallois, and Sergio Bianchi*
