

Preface

This issue is divided in two parts. The first one concerns research papers submitted and accepted according the standard journal guidelines. The second part is devoted to the *3rd One-Day International Workshop on Machine Learning for Finance*.

The workshop has been entirely held online on December 17, 2021, streamed via the Zoom platform offered by the Department of Economics of the Ca' Foscari University of Venice. For more information see <https://www.unive.it/data/33113/3/55613>.

The second part of this issue collects original papers freely submitted to the journal by Contributors to the workshop and, following the usual journal reviewing praxis, each peer reviewed by at least two anonymous referees.

Guest Editor (and Scientific Director of the workshop):

Marco Corazza
