

ONLINE POSTGRADUATE SUMMER SCHOOL ON GREEN CHEMISTRY  
6-10 July 2020  
Venice, Italy  
[www.unive.it/ssgc](http://www.unive.it/ssgc)

## Lectures and teachers 2020

### Marco Eissen

Gymnasium Ganderkesee, Germany

Lecture title: Synthesis design with mass related metrics and health metrics

#### Profile

Marco Eissen received his PhD in organic chemistry in 2001 from the University of Oldenburg, Germany. He was a post-doctoral fellow at the Swiss Federal Institute of Technology Zürich, Switzerland, and at the Saarland University, Germany. In 2003 Marco Eissen began teaching chemistry and mathematics in Göttingen and, since 2005, in Ganderkesee, Germany. The development of assessment methodologies in early stages of synthesis design and of curriculum materials is the main focus of his work. From 2008 to 2012 he cooperated with IFU Hamburg, Germany, which is a software company developing solutions in the fields of material flow management, life cycle assessment and environmental management.
