Lectures and teachers 2020

Mario Marchionna

Corporate Head of Technology Innovation of Saipem

Lecture title: Hydrogen: the Missing Piece of the Zero-Carbon Puzzle?

Profile

Mario Marchionna is currently the Corporate Head of Technology Innovation of Saipem, where he has responsibility at a corporate level of all the worldwide Innovation activities carried out by Saipem and its affiliates.

Previously, he spent most of his career in Snamprogetti, where, as a researcher, he contributed to the development of processes in the field of production of fuel components, natural gas conversion and heavy residues hydrotreatment, and in Eni, where he covered different positions in the R&D function, such as Vice President of Application Development and Cross-Business Projects in the Research & Technological Innovation Department of Eni. He holds a Ph.D in Industrial Chemistry, awarded by the University and Polytechnic both of Milan.

As a researcher, he filed more than 40 parent patent applications and published more than 120 scientific papers and about 140 communications at congresses.
