

## OUR NETWORK

Students have access to a wide network of companies focused on digital innovation and transformation.

Entrepreneurs, CEOs and top managers from international companies come and visit the H-CAMPUS every day and the career service ensure to create links between students and the job market. Students had the opportunity to meet professionals such as Vittorio di Tomaso (CELI Artificial Intelligence MD), David Green (LYNK Chief Digital Officer), Anilkumar Dave (Head of Innovation and Transfer of Technologies Unit at Italian Space Agency), Marco Savini (Big Rock CEO), Dario Prunotto (Head of Territorial Development & Relations di Unicredit), Stefano Barrese and Renzo Simionato (Banca Intesa San Paolo) and many more.

Students have also the chance to visit nearby innovative companies and discover what opportunities are awaiting them once they graduate.

In particular, students had the opportunity to learn more about Electrolux and BFT.

H-FARM also provide students with opportunities of collaboration in innovative projects such as [Audi Group's "We Generation"](#), where 5 students were involved in communicating some key values of the brand. Through a journey enriched by storytelling and interactivity, the students started a reflection on how technology and innovation impact our lives.
