

Moodle Guidelines: how to use Ca' Foscari e-learning platform

Students can use Moodle platform for e-learning activities related to blended and online courses. They can also consult teaching materials from traditional classes.

Students can log into Moodle with their university access credentials.

Please find below a short guide.

1. Log in:

The screenshot shows the Moodle login interface for Ca' Foscari. At the top left, there is a menu icon and the university logo with the text 'Università Ca' Foscari Venezia'. To the right, there is a language menu with options: ENGLISH, ESPAÑOL - ESPAÑA, ESPAÑOL - INTERNACIONAL, ITALIANO, 日本語. A notification bubble says 'You are not logged in'. The main content area is titled 'Single Sign On' and contains a 'Login UniVe' button with the university logo and the text 'Per chi possiede le credenziali di accesso all'area riservata di Ca' Foscari'. Below this is a link for password recovery: 'Se hai dimenticato la password UNIVE segui la procedura di recupero password.' To the right, there is a cookie consent message: 'Cookies must be enabled in your browser' and a button for 'Not Ca' Foscari User'. Below that, it says 'Se non riesci ad accedere oppure vuoi avere maggiori informazioni ti chiediamo di contattare elearning@unive.it'.

2. Click on “Studenti Lauree e Lauree Magistrali”.
3. There are two options: you can search your course through “search courses”, or you can browse through the folders until you find the courses list of your Bachelor’s or Master’s degree programme.
4. Once you found the course, you can self-enrol clicking on “enrol me”. If the course requires an enrolment key, please insert the password provided by the teacher.

On Moodle platform, every activity has its own course, which it can be modified and customised by each teacher. In every course, you will find “annunci”: it is a space in which you will find any communication related to the activity. If you are enrolled in the course, you will receive the same communication via e-mail; it is not possible to reply to those e-mails.

On each subsequent access to the platform, clicking on the squared box on the top left, you can display the list of your courses.
