OPEN TO THE WORLD

Course Guide
2020/2021
OPEN TO THE WORLD SINCE 1868

With great pride, Ca’ Foscari University of Venice recently celebrated its 150th anniversary. The university was founded in 1868 as the Scuola Regia Superiore di Commercio (Advanced School for Commerce) by a group of innovative and learned scholars who introduced trade and foreign language studies to Italy, and it continues to be characterised by the same innovative spirit and openness to the world today.

Located in the very heart of the inspiring city of Venice, with its beautiful canals and rich cultural heritage, our university offers a uniquely stimulating and enriching academic environment. You can choose from a wide range of undergraduate and post-graduate degree programmes in either the humanities or the sciences, and we are world-ranked for our teaching and research in economics, management, modern languages, history, environmental science, chemistry, linguistics, accounting and finance, computer science, and geography. The education we offer you encourages interdisciplinarity and exploits innovative teaching methodologies. To further enrich your university experience, you can also broaden your horizons by adding a minor to your undergraduate degree or by taking advantage of special extracurricular learning and training opportunities. Our Active Learning Lab workshops, for instance, refine your soft skills to make you more attractive to employers.

Ca’ Foscari also provides you with a host of ways to grow thanks to our emphasis on international education. Not only do we offer many degree programmes entirely taught in English, but we also have a vast network of global partnerships that allow you to earn a joint degree with or carry out an exchange experience at other top-ranked universities in both Europe and around the world. Since your life outside the classroom should be rewarding, too, we have a rich calendar of cultural and social events to keep you stimulated and help you become an active part of our community.

Ca’ Foscari and I hope to welcome you to Venice soon!

Michele Bugliesi
Rector
Established in 1868, Ca’ Foscari University of Venice is a modern research university with over 23,000 students. It offers a varied array of undergraduate and graduate degrees in both the sciences and the humanities, a significant number of which are taught entirely in English.

Ca’ Foscari has a strong international reputation for both teaching and research. The QS World University Rankings have acknowledged its excellence in nine different subjects, including modern languages, economics and history, and Ca’ Foscari attracts highly talented young researchers. It is one of the top ten universities in Europe, and the most successful in Italy, with regard to the number of prestigious Marie Skłodowska-Curie Research Fellowships it has been awarded by the European Commission.

Heavily invested in being connected to the world, the university has developed a markedly international character. Over 40 languages are taught here and more than 1,500 students participate in exchange programmes scattered around the globe each year. What is more, Ca’ Foscari offers more than 30 double and joint degree programmes and has forged a network of over 500 partner universities.

The Ca’ Foscari experience is particularly unique due to the university’s location in Venice, an inspiring city with a rich history and vibrant present that animate and catalyse contemporary creativity and innovation.
Why choose Ca’ Foscari?

WHY STUDY AT CA’ FOSCARI?

• You can choose from a wide range of bachelor’s, master’s and doctoral degree programmes, including many taught entirely in English and dozens offering double or joint diplomas with other respected universities.

• Ca’ Foscari rewards high-achieving students with various incentives, including scholarships and tuition fee waivers or reductions.

• You can give your university experience an international edge by taking advantage of our hundreds of study abroad programmes around the globe.

• You can enrich your degree programme with innovative and interdisciplinary workshops dedicated to developing your soft skills and learning to network and work collaboratively.

• You can complement your classroom learning with real-world internships both in Italy and abroad.

• Ca’ Foscari invests heavily in expert teaching and innovative research, particularly with the goal of supporting and promoting emerging scholars.

• A Ca’ Foscari education prepares you for the working world, as proven by the university’s high graduate employment rate.

• When you are not in the classroom, Ca’ Foscari helps you cultivate your passions and interests by organising cultural events and offering you the opportunity to get involved in extracurricular activities, including theatre, music, radio, cinema, sports and more.

WHY STUDY IN VENICE?

Most of the university’s campuses and buildings are located in Venice, and this makes the Ca’ Foscari experience undeniably special. Located in a lagoon on the Adriatic coast in northeast Italy, the city occupies 120 small islands separated by canals and connected by bridges. As a result, its urban fabric is characterised not by traffic-congested roads, but by pedestrian walkways and lively public squares, so it encourages an environmentally conscious, neighbourhood-based lifestyle.

Most importantly, Venice is an intellectually and culturally stimulating city that offers countless ways to learn, grow and be inspired. It has been classified as a UNESCO World Heritage Site thanks to its stunning historical art and architecture, which conjures up the city’s extraordinary past as a cultural and commercial crossroads. What is more, every year it plays host to all kinds of internationally renowned exhibitions, events and festivals, offering you endless opportunities for discovering different ideas, traditions and cultures.

So studying at Ca’ Foscari in Venice means being exposed to top-notch teaching and research in a vibrant, enriching setting.
Peoples
23,000 students, including 1,300 international students
1,300 professors, lecturers and administrative staff, as well as 100 visiting professors each year

Degree Programmes

RESEARCH AT CA’ FOSCARI

Ca’ Foscari’s international reputation for innovative and impactful scholarship is a result of its firm commitment to fostering research excellence, especially thanks to the development of international partnerships and the allocation of resources to the funding of promising young scholars’ work. Ca’ Foscari, in fact, ranks fourth in all of Europe for the number of prestigious Marie Skłodowska-Curie Fellows it has attracted. The university actively promotes interdisciplinarity in order to encourage faculty and students to explore new frontiers, and it has recently built a state-of-the-art science and technology campus.

TACKLING GLOBAL CHALLENGES

In the knowledge that today’s universities are called upon to explore and propose solutions to the urgent problems facing our modern world, Ca’ Foscari has formed six Global Challenges Research Institutes. These teams seek answers through interdisciplinary collaboration by uniting scholars from diverse disciplines in order to spark new ideas and inspire new approaches. Each team is dedicated to investigating one of the following themes:

- Digital and Cultural Heritage
- Social Innovation
- Complexity
- International Studies
- Green and Blue Growth
- Innovation Management

INTERNATIONAL RANKINGS
Ca’ Foscari attracts influential academics and dynamic students from around the globe by fostering an inspiring environment in which to learn, teach and carry out research. In order to welcome an even more varied community of students, the university has a range of degree programmes taught entirely in English and a worldwide network of over 500 university partners. In the firm belief that international study and research experiences foster creativity and innovation through intellectual and cultural exchange, Ca’ Foscari encourages its faculty, students and administrative staff to spend formative periods abroad. To facilitate this, the university has established dozens of double and joint degree programmes with prestigious partner universities in a host of different countries and has over 700 exchange agreements in place, giving those who study and work at Ca’ Foscari the chance to learn and grow in virtually every corner of the world. Whether you want to explore Asia or North America, Africa or Europe, South America or Australia, Ca’ Foscari paves the way. In addition, the university has begun opening various “Offices in the World” in order to have a more continuous and active presence in scholarly and cultural contexts beyond Italy’s borders. Three have already been launched in China, Russia and Azerbaijan.

School for International Education
The Ca’ Foscari School for International Education (SIE) offers you the opportunity to learn Italian, to take courses about Italian history, language and culture taught in English, and to obtain any missing credits that your chosen degree programme requires you to have before beginning your studies. You can also broaden and enrich your educational experience by applying to participate in one of the SIE’s intensive summer programmes, some of which are run in collaboration with distinguished international partners such as Harvard University and Columbia University.

www.unive.it/cfsie
cfsie@unive.it

International College
Ca’ Foscari’s International College (Collegio Internazionale) is a centre of academic excellence for high-achieving students from both Italy and abroad. As a result, the college is one of the most vibrant hubs of cultural and academic exchange in northeastern Italy. If you are accepted for admission to the college, you get to enhance your studies at Ca’ Foscari by participating in an innovative interdisciplinary programme of courses and activities organised exclusively for the college’s academic community. As a member of the college, you are provided with accommodation on the Island of San Servolo, an international residential campus located near St. Mark’s Square, and may be awarded a full or partial merit-based scholarship.
collegio.internazionale@unive.it

CONNECTED TO THE WORLD
GETTING STARTED

COUNSELING AND WELCOME UNIT
The Counseling and Welcome Unit manages the online application procedure you must complete in order to be accepted for enrolment into your chosen degree programme. Then after you arrive it helps you settle in by providing information about and assistance with various administrative processes and university services. www.unive.it/welcome
welcome@unive.it

FINANCIAL AID UNIT
The Financial Aid Unit provides you with information about tuition fees and offers opportunities for grants, loans and fee reductions. www.unive.it/fees

HOUSING OFFICE
The Housing Office assists you in finding housing in Venice or on the mainland, whether you are looking for a room in a student residence or a space in a shared apartment. www.unive.it/housing-en

BUDDY PROGRAMME
This programme pairs international students like yourself with experienced students who volunteer to help welcome you to the city and to the university by giving you a hand as you get settled in to life at Ca’ Foscari. buddy@unive.it

LEARNING CENTRES

UNIVERSITY LANGUAGE CENTRE
The University Language Centre (Centro Linguistico di Ateneo) offers you foreign language courses in English, French, Russian, Spanish and German at various levels. If you are enrolled in a degree programme at Ca’ Foscari, you are entitled to a 75% discount on the cost. www.unive.it/cla

SCHOOL FOR INTERNATIONAL EDUCATION
The School for International Education offers you the opportunity to improve your Italian and learn about Italy’s history and culture. It also offers Ca’ Foscari’s Foundation Year programme and organises summer schools in collaboration with prestigious international partners. The school’s Italian language courses are offered at all skill levels and are open to everyone. The teachers are native-tongue instructors and classes are held in rooms with full multimedia access. If you enrol in an English-taught degree but are interested in beginning to learn Italian or improving your current knowledge of the language, the school offers you a 75% discount on the cost. www.unive.it/cfse-en
**CAREER SERVICE**

Ca' Foscari’s Career Service is dedicated to preparing you to enter the workforce after graduation. Throughout the year, it organises career guidance workshops with leading professionals that help you draw your roadmap to professional success, especially by teaching you how to shape your online presence and prepare effective curriculum vitae and cover letters. In addition, the office provides you with useful information about how to tackle job interviews both in Italy and abroad.

**FIGURES FOR 2018/19**

- **10,300** agreements with national and international companies
- **40** agreements with international NGOs
- **800+** job offers posted
- **2,600+** internship offers in Italy
- **350+** internship offers abroad
- **380** counseling and career guidance sessions offered
- **30+** seminars and workshops focused on careers, professions and entrepreneurship

**INTERNSHIPS IN ITALY AND ABROAD**

To give you invaluable on-the-job training and professional work experience, the Career Service office promotes and organises internships both in Italy and all around the world. The university has forged a well-consolidated network of relationships with cultural organisations, NGOs, Chambers of Commerce and a host of companies in order to offer you the opportunity to carry out an internship that will help you realise your professional goals. Internships abroad can be set up either during your studies or shortly after you graduate.

**RECRUITMENT DAYS**

Ca' Foscari’s Career Service organises a series of recruitment days related to all areas of study in collaboration with its network of international and Italian businesses. This year over 90 businesses participated under the following themes:
- Finance and Consulting
- Fashion and Luxury
- Food and Beverage
- Retail and Lifestyle
- Industry and Services

These opportunities can be useful to you as an international student because your study visa allows you to seek employment in Italy for a full year after graduation in order to launch your career.
Student associations play a crucial role in bringing students together and involving them in university life, so Ca’ Foscari actively supports their recreational and cultural initiatives.

associazioni.studenti@unive.it
www.unive.it/associazioni-studenti

ERASMUS STUDENT NETWORK (ESN)
With over 12,000 members from 390 local sections in 36 countries, the Erasmus Student Network supports and promotes international mobility by providing you with opportunities for cultural understanding and self-development through a network of students helping students.

venezia_mam@esn.it
www.esnvenezia.it

AIESEC VENEZIA
AIESEC is an international network that gives you people the opportunity to discover and develop your leadership potential with the aim of helping you make a positive impact on society. To achieve this, AIESEC members participate in various activities such as conferences and association events and carry out international internships.

www.facebook.com/aiesecvenezia
SPORTS AND CULTURAL ACTIVITIES

UNIVERSITY SPORTS CENTRE
The University Sports Centre (Centro Universitario Sportivo, or CUS) offers you the opportunity to participate in a wide variety of sports thanks to facilities located both in the city centre and on the mainland.
venescus@unive.it
www.cusvenezia.it

SCIENCE GALLERY VENICE
Part of the acclaimed Global Science Gallery Network, the new Science Gallery Venice is set to open its doors next year. Its interactive exhibition space will offer a stimulating environment for the discovery of science, particularly for high school and university students.
venice.sciencégallery.com

RADIO CA’ FOSSARI
Created by students for students, Ca’ Foscari’s online radio station is one of the university’s newest communication tools. You can take part in its organisation and operation on the basis of your individual skills and experience.
radiocafoscarionline@unive.it
www.radiocafoscarionline.it

UNIVERSITY CHOIR AND ORCHESTRA
For more than twenty-five years Ca’ Foscari’s choir and orchestra have been offering the opportunity to begin exploring or continue to foster a love of music. The groups’ repertoires change from year to year and range from medieval to contemporary pieces.
corouniv@unive.it

SHYLOCK
UNIVERSITY THEATRE CENTRE (CUT)
Shylock is a cultural association aimed at promoting technical-artistic innovation in the field of theatre. It organises training and experimental workshops, hosts visiting productions and shows, and carries out research and production projects. The association’s activities involve a wide range of disciplines and cultural professionals.

www.cut.it

CA’ FOSSARI THEATRE
The Ca’ Foscari Theatre at Santa Marta offers a wide variety of performances throughout the year. The detailed programme and ticket information is available online.
www.unive.it/teatrodicafoscari
Every day the city offers its residents – a large number of whom are students – the chance to feed their thirst for knowledge thanks to seemingly endless artistic and cultural exhibitions, initiatives and events. Studying in Venice means living and breathing art, architecture and culture. It also means living an environmentally conscious lifestyle.

One of the most eagerly awaited moments in a Venetian student’s day is the so-called aperitivo in campo, or outdoor aperitif: from the afternoon through to late evening, areas of the city such as Campo Santa Margherita and the Erbarìa at Rialto turn into venues where people gather to chat and listen to music while they drink spritz and eat cicchetti – the traditional drink and snacks for which Venice is famous.

CA’ FOSCARI CULTURAL EVENTS
Apart from regular events such as conferences, guest lectures and seminars featuring prominent scholars and cultural figures, Ca’ Foscari organises some of Venice’s most popular cultural events. Here is a selection:
• Art Night Venezia, an evening of open museums and galleries dedicated to art lovers
• Ca’ Foscari Short Film Festival, the first international festival in Europe created and organised by students that showcases student work
• Incroci di Civiltà (Crossroads of Civilisations), a renowned international literary festival
• Venetonight, the European Researchers’ Night
• International Universities Challenge during Venice’s annual Historical Regatta
• National and international Dragon Boat Races

OTHER NOT-TO-BE-MISSED EVENTS ON THE VENETIAN CALENDAR
• Carnival, usually in February: The traditional celebration before the beginning of Lent for which all of Venice’s public squares are transformed into outdoor clubs hosting special events, parties and live music.
• The Redentore Festival (Festa del Redentore): A popular local festival celebrating the city’s recovery from the plague in the sixteenth century for which a spectacular fireworks display is organised. Venetians watch the show from the fondamente and their boats, eating and drinking.
• Venice Biennale: The world’s premiere international contemporary art and architecture exhibition that runs from May to November.
• Venice Film Festival: A world-renowned festival that takes place in September on the Lido, showcasing some of the year’s most noteworthy films and attracting influential contemporary movie directors and actors.

For further information about Venice’s cultural events, visit en.turismovenezia.it.

NETWORKS
Learn about and keep up with what’s happening at Ca’ Foscari! Find out about all of the initiatives and events organised by the university in the online magazine Cafoscarinews at www.unive.it/cafoscarinews and check out student life on Instagram by following the account studentlifeinvenice.
To learn more about Italy’s higher education system, visit www.study-in-italy.it or www.universitaly.it.

The European Credit Transfer and Accumulation System (ECTS) facilitates the transfer of university credits between universities in Europe. It is based on the clarity and transparency of students’ study plans and on the assignment of appropriate credits for the studies they complete. The system is designed to guarantee that an exchange student’s courses and exams are recognised by his or her home institution. Ca’ Foscari has established that 1 CFU, or Ca’ Foscari credit (credito formativo universitario), is equivalent to 1 ECTS credit.

For more information about the ECTS system and grade conversion, visit www.unive.it/ects-english.
Ca’ Foscari’s School for International Education offers an English-taught university preparatory programme called the Foundation Year. The programme is designed to get high school graduates ready to enrol in a bachelor’s degree programme taught in either English or Italian. The programme runs for 8 months, from October 2020 until June 2021.

The Foundation Year is right for you upon completion of high school if:

• you will have only 11 years of schooling instead of the 12 required to enrol in a bachelor’s degree programme in Italy
• you want to improve your English language skills before applying for admission to an English-taught bachelor’s degree programme
• you want to learn Italian in order to apply for admission to an Italian-taught bachelor’s degree programme
• you studied in the United States and do not have the three Advanced Placement exams required to enrol in a bachelor’s degree programme in Italy
• you studied in the UK and do not have the three A-levels required to enrol in a bachelor’s degree programme in Italy

Ca’ Foscari’s Foundation Year has three component parts, two of which allow you to tailor the preparation you receive to your personal needs and interests:

A. General curriculum
All Foundation students take this block of courses, which include Critical Thinking, Modern and Contemporary Italian History and Academic Skills.

B. Language module
The programme’s language-focused component concentrates either on improving your knowledge of English (International Option) or on learning Italian (Bridge Option), depending on the language in which you wish to carry out your university studies.

C. Study track
This block of courses helps you prepare for university study in your specific field of interest. There are four tracks from which to choose:
• Economics
• Humanities
• Science
• Architecture, Art & Design

Entry language level: certified knowledge of English at a B1 level (lower intermediate, according to the Common European Framework for Languages)

Fees: € 5,000; some partial scholarships are available

How to apply: online at apply.unive.it

CONTACTS:

- Language, Civilisation and the Science of Language
- Philosophy, International and Economic Studies

PRESERVATION AND MANAGEMENT OF CULTURAL HERITAGE
- Conservation of Cultural Heritage and Performing Arts Management
- Science and Technologies for Cultural Heritage

Interdisciplinary programmes appear in more than one study area.
To be sure about which test you would need to take, please write to welcome@unive.it.

ADDITIONAL LEARNING REQUIREMENTS
Ca’ Foscari’s pre-evaluation process makes sure that you will be properly prepared to carry out your university studies. If you are missing some of your programme’s entry requirements, you will be asked to fulfil Additional Learning Requirements (obblighi formativi aggiuntivi, or OFA) by taking the appropriate remedial courses. OFAs have no impact on the number of credits that you are required to obtain during your studies or on your grade point average – they are pass/fail only.

LANGUAGE REQUIREMENTS
All of Ca’ Foscari’s undergraduate programmes require you to have a certified minimum B2-level of knowledge (as defined by the Common European Framework of Reference for Languages, or CEFR) of your programme’s language of instruction. If you are a native speaker or have already studied in the relevant language, you do not need a certificate. If you are interested in an Italian-taught programme, you must demonstrate a certified minimum B1-level knowledge of English. To prove your level of Italian, if you are not an EU citizen and you reside outside Italy, you must demonstrate your level in Italian either by obtaining one of the certificates recognised by the Italian Ministry of Education, Universities and Research (MIUR) or by taking the Italian language test that Ca’ Foscari arranges in Venice shortly before the beginning of the academic year. You can find more information about language requirements at www.unive.it.

ADMISSION TO BACHELOR’S DEGREE PROGRAMMES
Enrolment may have either limited enrolment (accesso programmato) or accesso libero. If you apply for a programme with limited enrolment, you must be ranked through a pre-enrolment selection process. Depending on your citizenship and country of residence, this involves taking a written or oral entry test whose results place you on a ranked list of applicants. Those ranked highest are offered a place:

<table>
<thead>
<tr>
<th>Entry test type for limited enrolment programmes</th>
<th>EU citizen</th>
<th>Non-EU citizen residing in Italy</th>
<th>Non-EU citizen residing in the EU</th>
<th>Non-EU citizen residing outside the EU</th>
</tr>
</thead>
<tbody>
<tr>
<td>Written test in Italy</td>
<td>Written test in Italy</td>
<td>Written test in Italy or oral test via Skype*</td>
<td>Oral test via Skype*</td>
<td></td>
</tr>
</tbody>
</table>

ENRICH YOUR DEGREE
A minor is a course of study comprising 18 ECTS credits that are broken down into three modules of 6 ECTS credits each. It allows you to enrich your education by broadening your horizons beyond your principal study area. You can choose from any of the minors as long as there is no overlap in content with your chosen degree programme.

MINORS
While a wide range of minors are available in Italian, ranging from topics about management to cultural studies, and from finance to gender studies, two were taught in English during the 2019/2020 academic year:
• Computer and Data Science
• Energy, Climate Change and Environmental Risks

* Depending on visa type
Would you like a career as a conservation specialist or an artistic heritage manager? This innovative programme is designed to help you achieve this goal. Different curricula allow you to specialise in art history, archaeology, the performing arts and media, or the management of arts and cultural activities. The programme incorporates both historic and artistic aspects because working in the field of cultural heritage requires you to have an in-depth knowledge of a specific historical context. Depending on the curriculum you choose, you also acquire methodological skills in management (legislation), conservation (restauration, maintenance, prevention), documentation (cataloguing, graphic reproduction), promotion (project design, finding resources and funding, financial planning) and cultural heritage.

CURRICULA
- Archaeology
- Art History
- Economics and Management of Arts and Cultural Activities
- Performing Arts and Media Studies

CAREER OPPORTUNITIES
Graduates can find employment in local government and with agencies involved in the protection, conservation and management of archaeological and historical-artistic heritage or in promotion of artistic events, the performing arts and the culture industry. Possible careers include:
- Event organiser
- Television, film and theatre producer

ENTRY REQUIREMENTS AND ADMISSION
- EU citizens interested in the Business Administration curriculum must take an Italian-language written entry test in Italy evaluating their knowledge of logic and mathematics; EU citizens interested in the Business Administration and Management curriculum must take an English-language written entry test in Italy that assesses their knowledge of mathematics.
- Non-EU citizens interested in either curriculum must take either an oral entry test via Skype or one of the written tests described in the previous point in the language of instruction of their chosen curriculum; for more information, write to welcome@unive.it.
- For the Business Administration curriculum, a certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required; for the Business Administration and Management curriculum, a certified B2-level knowledge of English is required.

Do you want to work in an industrial, commercial or financial institution? This programme provides you with the skills you need for the marketing sector, administration and business management, organisation and staff management, and the finance and financial intermediation sectors. Thanks to agreements with the Order of Chartered Accountants and Accounting Experts of Venice and the Order of Labour Consultants of Vicenza, you have the option of carrying out a professional internship during the final year of your degree. If you are interested in pursuing a career in an international context, the Business Administration and Management curriculum, which is entirely taught in English, is right for you.

CURRICULA
- Business Administration
- Business Administration and Management

CAREER OPPORTUNITIES
Graduates can find employment as managers and consultants in industrial, business, banking and finance companies and enterprises, both in Italy and abroad. Potential career fields include:
- Management and supervision in the private sector
- Human resources
- Workplace organisation
- Accountancy
- Finance
- Sales and distribution
- Marketing

ENTRY REQUIREMENTS AND ADMISSION
- EU citizens interested in the Business Administration curriculum must take an Italian-language written entry test in Italy evaluating their knowledge of logic and mathematics; EU citizens interested in the Business Administration and Management curriculum must take an English-language written entry test in Italy that assesses their knowledge of mathematics.
- Non-EU citizens interested in either curriculum must take either an oral entry test via Skype or one of the written tests described in the previous point in the language of instruction of their chosen curriculum; for more information, write to welcome@unive.it.
- For the Business Administration curriculum, a certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required; for the Business Administration and Management curriculum, a certified B2-level knowledge of English is required.

Created in partnership with the digital business incubator H-Farm, this innovative programme is unique in Italy and trains you to be a motivated specialist in digital transformation capable of launching start-ups or helping a business go digital.

The degree is entirely taught in English and offers you an engaging learning experience that emphasises interdisciplinary training, problem solving and team-based teaching. It features a strong programme of extra-curricular activities that include soft skills development, and from your very first year you will be put in close contact with mentors involved with start-ups and the digital world. Project work in companies plays a fundamental role in the curriculum, and the companies within the Ca’ Foscari and H-Farm network offer opportunities for personal development by introducing you to innovative business ideas. The programme is taught on the H-Campus at Ca’ Tron, Roncade (near Treviso).

CAREER OPPORTUNITIES
Graduates possess the training they need to become business executives capable of identifying, interpreting and managing new organisational processes and business methods. Possible careers include:

- Digital project manager
- Digital manager
- Business developer
- Growth hacker

ENTRY REQUIREMENTS AND ADMISSION
- EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of logic and mathematics. Additional information is available at welcome@unive.it.

- A certified B2-level knowledge of English is required.

Do you want to specialise in economics and be capable of working both in Italy and abroad? This flexible and in-depth programme provides you with the skills you need to critically analyse economic phenomena and tackle the world of private businesses or public organisations. Apart from the lecture-based courses, the programme incorporates workshops and internships to help you acquire the expertise you need for the working world. Thanks to two separate curricula, you can choose whether to study in Italian or in English.

CURRICULA
- Economics and Business
- Economics, Markets and Finance

CAREER OPPORTUNITIES
Depending on the curriculum they complete, graduates can find employment as consultants in the field of economics or take on a professional role in the public and private sectors of tourism.

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens interested in the Economics and Business curriculum must take an Italian-language written entry test in Italy that evaluates their knowledge of logic and mathematics; EU citizens interested in the Economics, Markets and Finance curriculum must take an English-language written entry test in Italy that evaluates their knowledge of logic and mathematics.

- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of logic and mathematics; for more information, write to welcome@unive.it.

- A certified B2-level knowledge of English is required.
This programme trains you to be a modern, professionally cosmopolitan engineer with the skills you need to tackle a wide range of issues related to advanced technology, whether these are linked to energy, materials, computer science, biomedicine or “quantum computing”. Engineering physics experts are multi-skilled professionals who combine expertise in two disciplines: the fundamentals of science and the practicality of engineering. This makes them capable of adapting to situations in continuous technological evolution, including the fields known as Complexity Sciences such as neuroscience or quantum physics.

CAREER OPPORTUNITIES
Graduates of the programme will be able to work in all technologically advanced sectors related to both production (materials, nanotechnology, biomedicine) and processing (numerical modeling, multi-variable systems, cyber security). There are employment prospects for graduates in both Italy and abroad.

ENTRY REQUIREMENTS AND ADMISSION
• EU citizens must take a written entry test in Italy that evaluates their knowledge of mathematics, science, logic and verbal comprehension.
• Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of mathematics, science, logic and verbal comprehension; for more information, write to welcome@unive.it.
• A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

If you are interested in developing solutions for environmental problems, diagnosis plans or prevention strategies, this programme prepares you to do so by equipping you with the multidisciplinary skills you need. The degree involves core courses in mathematics, physics, chemistry, biology, ecology and geology, as well as specific courses in environmental science, in order to provide you with a rich understanding of environmental economics, ecology, environmental chemistry, law and environmental planning. It also teaches you how to evaluate environmental impact. You can push your knowledge further thanks to workshops, labs and field activities, and during your second year you will get to spend a special intensive week with professors, researchers and tutors, a unique opportunity in Italy. What is more, thanks to Ca’ Foscari’s numerous exchange agreements, you can choose to spend a semester or a year at a partner university abroad.

CAREER OPPORTUNITIES
Graduates can leverage their multidisciplinary skills to work in the diagnosis and prevention of environmental issues, as well as the development of strategies for managing them, at both public and private agencies and organisations. Possible fields of employment include:
• Renewable energy and energy conservation
• Environmental control
• Waste collection and management
• Agriculture and forestry

ENTRY REQUIREMENTS AND ADMISSION
• A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

HISTORY
Language of instruction:

This programme provides you with the foundation for carrying out historical, anthropological, social and documentary research in different historical periods. Based on the curriculum you choose, the programme introduces you to ancient, Roman, medieval, modern or contemporary history as well as to aspects of anthropology and geography. The anthropological, archival and historical approaches employed will allow you to explore other fields as well. Thanks to the skills that the degree helps you to acquire, you are prepared to launch a career in a variety of fields, including cultural heritage management, communication, cultural event organisation and publishing.

CURRICULA
• Anthropological
• Archival Librarian
• Historic – The Mediterranean World from Antiquity to the Middle Ages
• Historic – From European Hegemony to Globalisation

CAREER OPPORTUNITIES
Graduates are equipped either to continue on to graduate study or to seek employment at both public and private institutions connected to the study or preservation of history. Possible career fields include:
• Archives and museums
• Arts administration

ENTRY REQUIREMENTS AND ADMISSION
• A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

CONTACT INFORMATION:
Department of Humanities
Palazzo Mocenigo, Palazzo Mocenigo, Dorsoduro 3484/D, Venice
campus.umanistico@unive.it

This programme focuses on linguistic history and the figurative and literary culture of Europe and the ancient Mediterranean world from the medieval period to the present day. You can choose between two curricula: Antiquity; or Science of the Literary Text and Communication. The programme provides you with a direct knowledge of texts and original documents as well as a critical approach with regard to how knowledge, ideas and information have been passed on over the centuries. Thanks to the skills you gain, you will be equipped to establish yourself in a range of professional fields, from the dissemination of information to cultural heritage conservation and management, and from archival cataloguing to the critical analysis of information.

CURRICULA
- Antiquity
- Science of the Literary Text and Communication

CAREER OPPORTUNITIES
Graduates possess the basic knowledge necessary for teaching at middle schools and high schools. They are also prepared to take on a professional role at public or private institutions in a variety of cultural areas. Possible career fields include:
- Journalism
- Cultural management
- Cultural consulting
- Administration
- Archives and libraries

ENTRY REQUIREMENTS AND ADMISSION
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

DOUBLE/JOINT DEGREE AVAILABLE
Double degree with University College London (UK): After completing their studies, students receive a Laurea in Lettere from Ca’ Foscari and a Bachelor’s Degree in Italian Studies/Italian and the History of Art from UCL. Applications are submitted via the UCAS portal and are evaluated by UCL.

CONTACT INFORMATION:
Department of Humanities, Palazzo Malcanton Marcorà, Dorsoduro 3484/D, Venice campus.umanistico@unive.it
www.unive.it/degree/ft3

The thorough theoretical and experimental knowledge of computer science that this programme offers has been recognised as outstanding by several Italian professional associations. The degree provides you with core conceptual competencies in informatics, as well as analytical, planning and development skills, methodological and technological know-how and other professional skills. If you choose the European Computer Science curriculum, you have the opportunity to apply to spend a year abroad at one of Ca’ Foscari’s partner universities. If you choose the Data Science curriculum, you acquire focused skills related to data collection, a new and active market. The more traditional Technologies and Information Science curriculum, in contrast, allows you to explore professional informatics fields such as web technologies and design or informatics system administration. All curricula include workshop activities and experimentation as well as a knowledge of English, especially the technical language used in relation to ICT.

CURRICULA
- Data Science
- European Computer Science (ECS)
- Technologies and Information Science

CAREER OPPORTUNITIES
Graduates can pursue careers in the software production and data analysis sectors with manufacturing companies in the fields of information systems and processor networks, or with organisations, local authorities and professional laboratories that work with complex information processing systems and methods. Possible careers include:
- Computer programmer
- Applications expert
- Web technician
- Database technician
- Network and systems technician

ENTRY REQUIREMENTS AND ADMISSION
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

DOUBLE/JOINT DEGREES AVAILABLE
Double degrees in European Computer Science are in place with: University of Hamburg (Germany), Universidad de Burgos (Spain), Istituto Politecnico de Coimbra (Portugal), Université Paul Verlaine–Metz/Nancy (France), Université François Rabelais–Tours/Blois (France), Timisoara (Romania), Turku University of Applied Sciences (Finland). At the end of their studies students receive a double degree in European Computer Science (ECS). Ca’ Foscari issues a yearly call for applications for each of these double degree programmes.

CONTACT INFORMATION:
Department of Environmental Sciences, Informatics and Statistics, Scientific Campus, Via Torino 155, Mestre campus.scientifico@unive.it
www.unive.it/degree/ct3
This programme develops an in-depth understanding of economic issues by equipping you with a wide range of analytical tools in the economic, business, legal and quantitative fields. The Foreign Trade curriculum provides the skills you need to manage complex import-export relations in business, to value investments in foreign markets and to organise production processes on an international scale. In the Tourism Economics curriculum, you learn to interpret trends in global tourism markets and to understand the complexity and the transversality of the tourism industry. You also acquire the know-how to set up development plans for private or public organisations operating in the tourism sector or in a tourist destination. In order to foster your personal development, the programme incorporates an internship at a business and/or institution, which you are encouraged to carry out abroad.

**CAREER OPPORTUNITIES**

Graduates are prepared to launch careers as export business relations specialists, executive assistants or foreign-trade area managers. They are also ready for employment as executive assistants or assistants to CEOs, export managers and purchasing managers. Possible career fields include:

- Financial and administrative management
- International trade research consultancy
- Process organisation and management
- Commercial organisation

**ENTRY REQUIREMENTS AND ADMISSION**

- EU citizens must take a written entry test in Italy to evaluate their knowledge of logic and mathematics.
- Non-EU citizens must take an online exam (oral and/or written) to certify their preparedness for the programme.
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

**CURRICULA**

- Foreign Trade
- Tourism Economics

**LANGUAGE, CULTURE AND SOCIETY OF ASIA AND MEDITERRANEAN AFRICA**

Languages: Chinese, Korean, Japanese, Thai, Tibetan, Vietnamese

**ENTRY REQUIREMENTS AND ADMISSION**

Are you interested in learning more about Asia or the Near and Middle East? This programme allows you to choose any of the following languages as your focus: Arabic, Armenian, Chinese, Hebrew, Hindi, Japanese, Korean, Persian or Turkish. It teaches you writing and speaking skills in one or two languages as well as an advanced knowledge of English or French. It also introduces you to internationally recognised scholars, provides hands-on exercises with native speakers and offers the possibility of studying and/or carrying out an internship abroad. The programme explores the cultural and religious heritage of your chosen region as well as its history, literature, economics, legal system and social dynamics. With the knowledge and skills you acquire, you can either continue your education with a master’s degree or apply for international and multicultural jobs both in Europe and beyond in a variety of fields, including translation, interpreting, publishing, tourism, journalism, linguistic instruction. You are also equipped to work in social/educational services, welcome services for immigrants, the organisation and promotion of cultural and artistic events, the export of Italian goods and the import of Asian and Near or Middle Eastern products.

**CURRICULA**

- China
- Japan
- South Korea
- Indian Subcontinent
- Near and Middle East
- South-East Asia

**CONTACT INFORMATION:**

School of Economics, Languages and Entrepreneurship
Riviera Santa Margherita 76, Treviso campus.treviso@www.unive.it

www.unive.it/degree/et30

**CAREER OPPORTUNITIES**

Graduates are ready for employment in intercultural communication in a range of different contexts, such as cultural organisations and museums, national and European public institutions and international organisations and businesses. Possible career opportunities include:

- Foreign language correspondent
- International business liaison
- International public relations consultant
- Commercial agent
- Cultural consultant
- Translator or interpreter
ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written entry test in Italy that evaluates their knowledge of Italian, English and logic, as well as their familiarity with themes relevant to their chosen curriculum.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of Italian, English and logic, as well as their familiarity with themes relevant to their chosen curriculum; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

DOUBLE/JOINT DEGREES AVAILABLE

- Double degree with Capital Normal University (China): after completing their studies, students receive a Laurea in Lingue, culture e società dell’Asia e dell’Africa mediterranea from Ca’ Foscari and a Bachelor’s Degree in Chinese from CNU. Ca’ Foscari issues a special call for applications once a year for this double degree programme.

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written entry test in Italy that evaluates their knowledge of Italian, English and logic, as well as their familiarity with relevant themes.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of Italian, English and logic, as well as their familiarity with relevant themes; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required for all curricula except for those focusing on the English language, for which a B2-level knowledge of English is required. To enrol in the German stream, a B1 level in German is also required; no remedial classes are provided for beginners.

CAREER OPPORTUNITIES

Graduates are ready to work in various sectors, such as the management and enhancement of cultural heritage and education. Some of the career options available include:
- Translator
- Foreign language correspondent
- Public relations expert
- Tourism-related professions
- Cultural consultant

Would you like to work in linguistic and cultural mediation, in international communications or in tourism? This programme prepares you to do so with a professional approach, providing you with an interdisciplinary education that includes specific language courses for English and Spanish, international law and business economics. It also incorporates coursework addressing negotiation, translation and linguistics as well as the cultural and institutional characteristics of English- and Spanish-speaking regions. Thanks to the skills and knowledge you acquire, you can apply to be a linguistic consultant, translator or interpreter, and you will be capable of assisting with international negotiations or contributing to the international development of an institution.

CAREER OPPORTUNITIES
Graduates are prepared for a varied range of employment opportunities:
• Interpreter
• Translator
• Tour guide
• Cultural/linguistic mediator
• Foreign language correspondent
• International advertising agent
• Commercial liaison
• Communication expert
• Event organiser
• Cultural consultant

ENTRY REQUIREMENTS AND ADMISSION
• EU citizens must take a written entry test in Italy that evaluates their linguistic aptitude and cultural knowledge in both Italian and English, as well as their general knowledge of the history and geography of Spanish-speaking countries.
• Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their linguistic aptitude and cultural knowledge in both Italian and English, as well as their general knowledge of the history and geography of Spanish-speaking countries; for more information, write to welcome@unive.it.
• A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

PHILOSOPHY
Language of instruction: IT

This programme gives you a critical understanding of philosophy’s principal themes and the issues that have arisen in their historical development while exploring them in connection with other disciplines and research fields, including psychology, the human sciences, education studies and the arts. It is the only university programme in Italy that reflects on the philosophical matters that are fundamental to our contemporary world and our increasingly globalised society. Two of the programme’s defining components are its integration of the human sciences (psychology, anthropology) and its coursework in the education sciences. Thanks to the skills this programme helps you to develop, you will be ready to continue your education with a graduate degree or pursue a professional career in a variety of fields, including print and digital publishing and library and archive services.

CURRICULA
• Philosophy
• Philosophy and History
• Philosophy and Human Sciences

CAREER OPPORTUNITIES
Graduates are equipped to undertake advanced studies in the fields of philosophical and social analysis and educational counseling. They can also move on to a first-level professional master’s programme dealing with philosophy and philosophical counseling or with educational training and the science of cognition. Possible career fields include:
• Library and archive services
• Human resources
• Communication
• Advertising

ENTRY REQUIREMENTS AND ADMISSION
• A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

PHILOSOPHY, INTERNATIONAL AND ECONOMIC STUDIES

Language of instruction: 

This programme offers a flexible, international and multidisciplinary education that empowers you to analyse and interpret social, political and economic phenomena because it provides a solid logical-philosophical grounding, a familiarity with international realities and cultures, and a basic knowledge of the tools used to analyse the macroeconomic context, market behaviour and economic factors. The programme allows you to develop a critical understanding of philosophical, political and economic texts as well as the skills you need to be able to gather and communicate information about globalisation and to shape potential solutions for current issues. Thanks to the skills the degree provides, you will be equipped to pursue a wide range of professional careers in various fields, including international economics and international relations.

CAREER OPPORTUNITIES
Graduates may find employment as consultants in the international economics field or practice a profession in international relations with a specialised knowledge of economic-political phenomena and national institutions, working at either the ministerial or regional level, at chambers of commerce, at international institutions (OECD, World Bank, UN, etc.) or at private companies (for example, as an export manager or manager of international relations). Possible career opportunities include:
- Economic expert
- Public relations
- Cultural mediator
- International relations expert
- Public relations consultancy
- International marketing
- Diplomatic core
- Public governance

ENTRY REQUIREMENTS AND ADMISSION
- EU candidates must take a written entry test in Italy that evaluates their knowledge of logic and general culture.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of logic and general culture; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of English is required.

DOUBLE/JOINT DEGREE AVAILABLE
Double degree with the University of Groningen: Ca’ Foscari issues a special call for applications once a year for this double degree programme.

Do you want to become an expert in the conservation and restoration of cultural heritage? This programme prepares you for this by teaching you how to carry out technical and scientific investigations in order to understand what causes the deterioration of artistic, architectural and archaeological artefacts, to identify the appropriate restoration methodologies and to draw up conservation plans. During the first year, you acquire core competencies in chemistry, physics, mathematics and the history of art; in the second year, you participate in analytical and physical chemistry labs to master dexterity and gain hands-on experience by participating in restoration workshops, which continue in the third year. Upon graduation, you will have acquired an in-depth knowledge of the materials used in art and architecture, the impact that environment and context have on artefacts, and how to apply investigation methodologies in the effort to analyse and understand materials and evaluate their state of conservation.

CAREER OPPORTUNITIES
Graduates can find employment as experts in the diagnostics and conservation of cultural heritage at institutions specialising in cultural heritage management and conservation, as well as local agencies, companies and organisations operating in these fields. Career opportunities can be found in the following contexts:
- Museums and galleries
- Libraries and archives
- Art conservation and restoration
- Arts administration
- Heritage management

ENTRY REQUIREMENTS AND ADMISSION
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

This programme aims to understand social phenomena and sociological dynamics by applying an interdisciplinary approach. Over the course of three years, you gain legal skills (public, private and family law), a knowledge of the historical evolution and social development of society (economic structure, market economy, labour market, inequality, transformations of the family structure and relations, migration, democracy, welfare state), and a background in psychology (individual and collective processes, communication in aid relationships, psychological development and its socio-cultural context, psycho-social unrest, social and occupational psychology). This programme includes an internship supervised by professional social workers. Upon graduation, you will have the qualifications to plan and manage social initiatives.

CAREER OPPORTUNITIES
Graduates are trained to perform social work and intervention activities, operate on the territory as part of a network and comply with roles and duties as defined in the professional profile of social work. They may also sit professional licensing examinations that lead to the qualification of social worker. Career opportunities can be found in the following fields:
- Social work
- Rehabilitation and social integration
- Welfare administration
- Education and researcher
- Public administration
- NGOs

SUSTAINABLE CHEMISTRY AND TECHNOLOGIES
This programme trains professionals capable of acting as an interface between sustainable production and sustainable development. Their knowledge equips them to produce, transform and sell traditional and advanced products and materials, thus allowing them to contribute to the development of a chemical industry that is both “green” and sustainable. Possible career opportunities include:
- Process and product design and development
- Scientific research consultancy
- Energy development
- Chemical manufacturing
- Chemical information management
- Pharmaceutical, food and environmental services

ENTRY REQUIREMENTS AND ADMISSION
- EU citizens must take a written entry test in Italy that evaluates their knowledge of logic and mathematics.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of logic and mathematics; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

CURRICULA

ADMISSION TO MASTER’S DEGREE PROGRAMMES

ENTRANCE QUALIFICATIONS
In order to enrol in a master’s degree programme, you must have successfully completed an undergraduate degree involving at least three years of university study. If you obtained your degree outside Italy – whether you are Italian, an EU citizen or a non-EU citizen – you must undergo an online pre-evaluation of your credentials in order to confirm that you are eligible for admission to your chosen programme of study.

LANGUAGE REQUIREMENTS
Most master’s programmes require you to have a certified minimum B2-level of knowledge (as defined by the Common European Framework of Reference for Languages, or CEFR) of your programme’s language of instruction if you are not a native speaker.

To prove your level of Italian, if you are not an EU citizen and you reside outside Italy, you must obtain one of the certificates recognised by the Italian Ministry of Education, Universities and Research (MIUR) or take the Italian language test that Ca’ Foscari arranges in Venice shortly before the beginning of the academic year. You can find more information about language requirements on the specific web page of the programme that interests you.

ADMISSION
In order to ensure that you are prepared for graduate studies, a Teaching Committee must assess your educational background and personal experience by evaluating your undergraduate transcript of records and your curriculum vitae. To provide these documents, you simply upload them to Ca’ Foscari’s online application platform at apply.unive.it. If the Teaching Committee’s assessment is positive, applicants to programmes without an admission cap can proceed directly with the enrolment process while those applying to a programme with limited enrolment must take part in a pre-enrolment selection process by taking an entry test:

**Entry test type for limited enrolment programmes**

<table>
<thead>
<tr>
<th>Category</th>
<th>Test Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>EU citizen</td>
<td>Written test in Italy</td>
</tr>
<tr>
<td>Non-EU citizen residing in Italy</td>
<td>Written test in Italy</td>
</tr>
<tr>
<td>Non-EU citizen residing in the EU</td>
<td>Written test in Italy or oral test via Skype*</td>
</tr>
<tr>
<td>Non-EU citizen residing outside the EU</td>
<td>Oral test via Skype</td>
</tr>
</tbody>
</table>

* Depending on visa type

The entry tests yield a ranked list of eligible applicants for each programme. For further details on the specific entrance requirements of the degree programme that interests you, please visit the programme’s web page.

ENRICH YOUR DEGREE

ACTIVE LEARNING CENTRE
Ca’ Foscari’s Active Learning Centre adopts an innovative “learning by doing” approach designed to get master’s degree students actively involved in the production of knowledge. It replaces classroom-based lessons with interactive, experience-oriented, interdisciplinary teaching to promote innovation by tackling real cases in an open, creative context that is both responsive and trust-inspiring. With the support of your lecturers, you embark upon a process of discovery that will make you more self-aware and help you acquire the cross-disciplinary competencies that are so important in today’s workplace. You can participate in the Active Learning Centre’s activities regardless of the master’s degree programme in which you enrol.

Some of the centre’s offerings include:

- Active Learning Lab
- Business Management and Criminal Liability for Administrators and Executives
- CFA Fund Management Challenge
- CFA Investment Research Challenge
- Emotional Skills and Individual Development
- Forensic Accounting and Support in Controversy
- Methodologies, Digital Resources and Accounting Tools for Philological Studies
- Urban Innovation Bootcamp
- Workshop on Econometrics
- Workshop on Finance
- Workshop on International Relations and Organisations
Would you like to dive deeper into the study of economics and business with an emphasis on the administrative and financial management of companies of all sizes and diverse business sectors? This programme facilitates this by equipping you with the skills you need to work as an administrative or financial manager, controller, internal auditor, or risk manager. An in-depth study of the legal field also guarantees the necessary skills for the management of extraordinary finance operations and the exercise of professional services. You can put these skills to the test thanks to agreements with Venice’s Order of Chartered Accountants and Accounting Experts and Vicenza’s Order of Labour Consultants. You can start your professional training during your second year and will be exempt from the first session of Italy’s state exams. This programme turns you into an expert in accounting data, planning management control systems, organising financial strategies and auditing business risks. Depending on the curriculum you choose, you can investigate different aspects relating to the profession or internal business management.

CAREER OPPORTUNITIES
This programme offers an effective grounding for operating within companies and local authorities, holding positions related to corporate accounting and finance including management control. Possible career opportunities include:
- Manager
- Finance and business consultant
- Corporate finance specialist
- Accountant
- Tax professional

ENTRY REQUIREMENTS AND ADMISSION
- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum. Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of both Italian and English is required.

ANCIENT CIVILISATIONS: LITERATURE, HISTORY AND ARCHAEOLOGY
Language of instruction: Italian

This programme trains you as an expert in philology, ancient literatures, ancient history and archaeology. Depending on the curriculum you choose, you acquire specialised skills and methods in archaeology, ancient art and material culture history, languages and literatures of ancient Greek and Latin civilisations or ancient history (including Greek, Roman and ancient East history). Your academic activities benefit from state-of-the-art technologies and methodologies (e.g., digital humanities), allowing you to access texts and archives online and to use specifically designed analytical software. You can further explore your field of interest through excavation experiences, internships in epigraphy, digital humanities workshops and museum internships. Upon graduation, you will be able to assume a position of responsibility in institutions such as museums, local administration, archives, publishing houses, or obtain teaching qualifications for middle and secondary schools.

CURRICULA
- Ancient Philology, Literatures and History
- Archaeology

CAREER OPPORTUNITIES
Depending on their chosen curriculum, graduates are prepared for managerial positions at such institutions as archaeological superintendence offices, museums, offices in charge of cataloguing, documentation and restoration, and excavation associations or cooperatives. Potential career opportunities include:
- Public administration manager
- Archeologist
- Historian
- Art expert
- Linguist or philologist
- Publishing professional
- Museum curator

ENTRY REQUIREMENTS AND ADMISSION
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Italian and English is required.

This programme is offered jointly with the University of Padua and trains you to be an archivist or librarian by providing you with an in-depth academic understanding of the treatment of the various materials conserved in archives, libraries and documentation centres. The programme’s educational approach addresses theoretical, practical and methodological issues, and teaches you methods for the dissemination, enhancement and communication of archival and bibliographic information as well as how to use the main software and electronic communication tools employed in the archival and library sciences. The degree provides all of the skills and knowledge you need for positions of responsibility in both public and private archives, libraries and documentation centres.

CAREER OPPORTUNITIES
Graduates are prepared to take on managerial positions at institutions and organisations involved with the production, management, conservation, enhancement or communication of archival and bibliographical heritage. Career opportunities can be sought in the following fields:

• Museum curation and management
• Library and archive services
• Publishing and journalism
• Government agencies
• Public and private organisations focused on archival and bibliographic heritage
• Research and education

CONTACT INFORMATION:

ENTRY REQUIREMENTS AND ADMISSION
• Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
• A certified B2-level knowledge of both Italian and English is required.

BIOTECHNOLOGIES FOR SUSTAINABLE DEVELOPMENT AND THE ENVIRONMENT
Language of instruction: IT

This programme trains you to be a professional capable of working to protect the environment and to implement the use of renewable energies by preparing you to design, plan, evaluate, manage and control the kinds of systems, processes and services linked to these activities. The curriculum explores the different applications of environmental processes and applied research with a quantitative approach. It particularly focuses on ways to transform materials and energy that maximise production yield and minimise risk and environmental impact with a view to achieving environmental – but also economic and social – sustainability and implementing the circular economy concept. Through the programme, you develop relevant skills thanks to the multidisciplinary yet practical approach employed. The course combines disciplines such as industrial, mechanical and energy engineering, analytical chemistry, applied microbiology, the assessment of risks and environmental impacts throughout the life cycle of products and processes, environmental law and the economy of multi-utilities. Graduates acquire the skills they need to work in the field of industrial biotechnologies linked to the promotion of renewable resources and renewable energies, with regard to both the chemical, microbiological and engineering aspects of conversion and production processes, and to assess the environmental impact that these processes can produce.

CAREER OPPORTUNITIES
Graduates typically find work in fields relating to the innovation and development of products and processes and the evaluation and management of complex systems, either as freelance professionals or by working for service providers and public authorities. Graduates are prepared to launch careers as researchers or specialists at laboratories and public and private research and development institutions operating in chemical industries, the biotechnology industry for biomass processing or multi-utility companies involved with industrial and environmental biotechnologies. They can also supplement their preparation with a teacher training course in order to become an upper secondary school science teacher.

ENTRY REQUIREMENTS AND ADMISSION
• All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
• A certified B2-level knowledge of both Italian and English is required.

Do you want to work in an SME (small or medium-sized enterprise) or as a freelance consultant by focusing your studies on corporate and sustainability issues? This programme provides you with a wide range of skills as well as economic and managerial knowledge. By choosing this degree, you can complete an internship or gain practical business experience through active training projects. You also will be eligible to apply for a double degree with the Universität Hohenheim in Stuttgart, Germany.

CAREER OPPORTUNITIES
Graduates are equipped to take on managerial and development responsibilities in a host of different contexts. Career opportunities can be found in the following fields:
• Public administration management and supervision
• Human resources management
• Workplace organisation
• Business economics consultancy
• International projects/operations management
• New market development
• Area or export management

ENTRY REQUIREMENTS AND ADMISSION
• All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
• EU citizens must take a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum.
• Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum; for more information, please write to welcome@unive.it.
• A certified B2-level knowledge of both Italian and English is required.

DOUBLE/JOINT DEGREE AVAILABLE
Double degree with Universität Hohenheim Stuttgart (Germany): at the end of their studies, students obtain a Laurea Magistrale in Economia e gestione delle aziende from Ca’ Foscari and Master of Science in International Business and Economics (M.Sc.) or Master of Science in Management (M.Sc.) from Universität Hohenheim. Ca’ Foscari issues a yearly call for applications for this double degree programme.

This degree is the only international relations programme in Italy that combines the study of languages and foreign cultures, law and international economics. It immerses you in linguistic and cultural studies regarding Europe, Asia and the Atlantic world, which Ca’ Foscari has done since its founding. The curriculum offers solid linguistic training, legal knowledge and economics courses as well as in-depth comparative studies on the political, cultural, geographic and sociological fields through study programmes on specific geopolitical areas. The skills you gain will allow you to assume a position of responsibility in international offices and organisations, private companies that operate in the international market, public administration and territorial entities, national and international organisations in international corporations, in consular offices, institutions, entities, agencies and foundations.

CURRICULA
• Americas
• East Asia
• Eastern Europe
• European Union Studies
• Global Studies

CAREER OPPORTUNITIES
Graduates will be able to find employment with businesses and organisations operating in international markets, with local government and regional bodies, and with national and international institutes, agencies, foundations and study centres. Career opportunities can be found in the following fields, among others:
• Image management
• Public relations consultancy
• Journalism and broadcasting
• International marketing
• Public service

ENTRY REQUIREMENTS AND ADMISSION
• Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
• For the Global Studies curriculum, a certified B2-level knowledge of English is required; for the other curricula, a certified B2-level knowledge of both Italian and English is required.

This English-taught programme offers you a broad spectrum of knowledge and skills regarding the methods, tools and enabling technologies employed in the management and analysis of large amounts of data. The degree teaches you statistical techniques, machine learning and how to design reliable software with a particular focus on security, correctness and performance. The two curricula available prepare you for employment in the rapidly growing industrial sectors of production and services, particularly Big Data & Analytics, Cybersecurity, Cloud and IoT. After completing the programme, you will be proficient in software design, data management and analysis, informatics systems and computer networks. Several Italian professional associations have celebrated the programme’s excellence.

**CURRICULA**
- Data Management and Analytics
- Software Dependability and Cyber Security

**CAREER OPPORTUNITIES**
Graduates have the skills required for working in the fields of software construction and data analysis and can seek employment with manufacturing companies dealing with information systems and processor networks and with companies, local authorities and laboratories that employ complex information systems and analysis methods at both the national and international levels. Possible career opportunities include:
- Software analyst and developer
- Information security specialist
- System analysis
- System administrator
- Web application developer and analyst
- Database developer and analyst
- Information and network specialist

**ENTRY REQUIREMENTS AND ADMISSION**
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of English is required.

This programme is taught entirely in English and trains experts in cultural heritage conservation with a strong interdisciplinary approach (chemistry, physics, biology, computer science, geology) and emphasises hands-on experience with innovative conservation technologies. At the end of the programme, you possess the qualifications you need to become a conservation scientist, a technical and scientific expert in the conservation of cultural heritage. You will be able to design and use new restoration and conservation technologies, develop and design prevention and maintenance projects and carry out investigations of artefacts in a conservational context.

**CAREER OPPORTUNITIES**
Graduates can find employment with public and private organisations as well as businesses and laboratories specialising in restoration and conservation. They can also carry on with their studies at the doctoral level in chemical science. Possible career opportunities include:
- Museum technician
- Restorer
- Cultural consultant
- Restoration technology development

**ADMISSION**
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of English is required.

Offered jointly with the Université Paul-Valéry Montpellier 3 (UPVM) and in collaboration with the Université de Strasbourg, Sousse and Meknès, this master's degree programme gives you an in-depth knowledge of the countries along the south shore of the Mediterranean and their interaction with Europe. The two years of study take place between Italy, France, Tunisia or Morocco and provide you with interdisciplinary skills related to the study of migration in the Mediterranean and intercultural mediation, historical and social skills, qualitative and quantitative analysis tools, field research techniques, the analysis of collected data and European planning skills. An emphasis is placed on developing your linguistic skills, in particular Hebrew, Arabic and Moroccan. The degree also includes an internship, allowing you to acquire work experience in the field or carry out independent research. The programme is taught in English and French. Upon completing your studies, you receive a double diploma awarded by both Ca' Foscari and UPVM. With the skills you obtain in this plurilingual and multicultural context, you can establish yourself in diverse professional fields, from sustainable planning to Euro-Mediterranean cooperation. You can also work in the organisation and promotion of cultural events, social and educational activities, or the development of sustainable tourism. In each of these fields, MIM graduates can rely on excellent training and a deep understanding of the role and impact of planning in a geopolitical area that is as rich and delicate as the Mediterranean.

CROSSING THE MEDITERRANEAN: TOWARDS INVESTMENT AND INTEGRATION (MIM)

Languages of instruction: English and French.

ENTRY REQUIREMENTS AND ADMISSION

• Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
• A certified B2-level knowledge of English and a certified B1-level knowledge of French are required.

For further information on the application process, please consult the programme web page at www.mastermimplus.eu.

CONTACT INFORMATION:

www.unive.it/degree/lm8
This programme is offered jointly with the University of Padua and explores the new challenges linked to the phenomena of migration, delocalisation, postcolonial and neocolonial contexts, and the cultural impact of diversity.

The programme provides you with skills that are becoming increasingly relevant in our multi-ethnic society, which is undergoing urbanisation and facing increasing migration, impoverishment and the resulting defence and land claims movements. Thanks to the skills and experience you gain, you will be able to assume a position of responsibility in public institutions or international organisations, NGOs, museums, libraries or archives. You will also have the potential to collaborate with institutions offering social, educational and health services in planning and analysing strategies, and international cooperation and development, particularly with regard to migration and intercultural communication.

**CURRICULA**

- Demo-ethno-anthropological Studies
- Eastern Studies
- Historic-geographic Studies subdivided into two tracks, Historic and Geographic

**ENTRY REQUIREMENTS AND ADMISSION**

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Italian and English is required.

**CAREER OPPORTUNITIES**

As trained specialists in data analysis for society, graduates of the programme are equipped to work in: public organisations or private companies operating in the service industry; finance-related businesses and organisations, such as banks, insurance companies, consulting companies, rating agencies, and investment or hedge funds; public or private businesses and organisations operating in the health sector, such as R&D agencies and pharmaceutical companies; and research centres, both public and private, that make use of data analysis.

**ENTRY REQUIREMENTS AND ADMISSION**

- All applicants must be evaluated to confirm their possession of the necessary curricular and experiential requirements, which will result in a ranked list of eligible candidates. An interview may follow if required or opportune.
- A certified B2-level knowledge of English is required.

**DATA ANALYTICS FOR BUSINESS AND SOCIETY**

The course is designed for students who have studied economics or business and who have a strong interest in quantitative methods and the utilisation of data with the purpose of maintaining and increasing the competitive advantage of businesses.

The programme provides the data processing skills required to interpret and analyse complex phenomena in the fields of economics, strategy, marketing, human resources, finance, accounting and the social sciences in general. Furthermore, the programme ensures the acquisition of advanced skills in machine-learning techniques that permit the extraction of predictive patterns and models from digital data.

The programme explores two branches of study, “Business Application” and “Fintech and Bigtech”, and the syllabus emphasises computer technologies, AI learning methods, statistical learning methods and mathematical optimisation methods for supporting decisions and risk analysis.

**CAREER OPPORTUNITIES**

As graduates are also trained specialists in data analysis for society, they are equally prepared to find employment in: public organisations or private companies operating in the service industry; finance-related businesses and organisations, such as banks, insurance companies, consulting companies, rating agencies, and investment or hedge funds; public or private businesses and organisations operating in the health sector, such as R&D agencies and pharmaceutical companies; and research centres, both public and private, that make use of data analysis.

**ENTRY REQUIREMENTS AND ADMISSION**

- All applicants must be evaluated to confirm their possession of the necessary curricular and experiential requirements, which will result in a ranked list of eligible candidates. An interview may follow if required or opportune.
- A certified B2-level knowledge of English is required.

**CONTACT INFORMATION:**

Department of Economics
San Giobbe Campus, Cannaregio 873, Venice
campus.economico@unive.it
www.unive.it/degree/em14
This innovative study programme integrates the humanities and IT disciplines and equips you to support the promotion and dissemination of culture by helping you to become an expert in design, production and enhancement of web resources and in the digital management of cultural resources. The areas of study explored by the programme include computer science, linguistics and literature, history, law, art and archiving. Lectures are combined with practical laboratory activities in collaboration with the Venice Centre for Digital and Public Humanities at Ca Foscari. The study plan also includes a 250-hour internship to be carried out at a company or external organisation/ institution either in Italy or abroad whose purpose is to provide you with the professional and technical skills you will need in for launching a career in the working world or continuing with academic research.

**CAREER OPPORTUNITIES**

Graduates are prepared to assume positions of responsibility in activities connected to the service sector, the culture industry, cultural institutes and specific centres, such as specialist electronic publishing, the management, presentation and enhancement of cultural heritage/resources, intercultural activities and activities tied to user interaction through social media and social networks. Some of the possible professional roles open to them include:

- Expert in the design, production and enhancement of online resources
- Expert in the digital management of cultural resources
- Public Humanities expert

**ENTRY REQUIREMENTS AND ADMISSION**

- EU citizens must take a written entry test in Italy.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of English is required.

**CUTRICULA**

- **ECONOMICS AND FINANCE**
  - Economics – QEM
  - Economics and Finance
  - Finance

**CAREER OPPORTUNITIES**

For graduates specialising in economics, employment opportunities as economists can be sought at:

- research centres, universities, and national and international bodies and in companies that operate on international markets
- consultancy companies, non-profit organisations, the authorities regulating and protecting competition and markets, economic publications and companies that operate on international markets
- specialists in economics can also assume operational roles in the support of analysis and decisions at:
  - economic intervention agencies (local, national and supranational authorities, ministries and economic bodies)
  - support structures and institutions for market operators (consultancy centres, research and business marketing offices)
  - mutual investment funds, pension funds, commercial banks, investment banks, economic bodies)

**CONTACT INFORMATION**

Department of Humanities
Palazzo Malcanton Marcorà Dorsoduro 3484/D, Venice campus.umanistico@unive.it
www.unive.it/degree/fm11

**This programme equips you to deal confidently with the principal economic and financial issues thanks to the solid theoretical, quantitative and legal preparation it provides. Three curricula are available, two of which are taught entirely in English.**

**The Economics-QEM curriculum (taught in English) focuses on the in-depth study of two areas:**
- economic issues in both the microeconomic and macroeconomic contexts; and
- quantitative methods for the theoretical and empirical analysis of these issues. If you choose this module, there is the opportunity to apply to participate in the Erasmus Mundus programme (QEM).

**The Economy and Finance curriculum (taught in Italian) and Finance curriculum (taught in English) provide you with specialist knowledge in a wide range of areas, including:**
- financial markets; the main areas of management of financial intermediaries (credit, finance, treasury, securities, organisation, planning and control);
- the management of financial investments; the measurement and management of financial risk; financial advice and insurance; supplementary pension schemes and the management of pension funds; the organisation of the internal processes; and the administrative management of banks and financial intermediaries in general.

In opting for one of these two curricula, you would be able to apply for double degree programmes, participate in the Bloomberg Lab and other associated courses and earn CFA and AIAF (Italian Society of Financial Analysts) certification.
Do you want to work in the field of artistic heritage and cultural management? This programme trains you to understand the nature and processes of cultural production, interconnecting the professional worlds of management and culture. The lectures, teaching approach and structure of this programme allow you to identify and exploit new connections between culture and business by exploring the exciting relationship between creativity and innovation.

You can also apply the knowledge the degree provides by taking advantage of internship opportunities that prepare you to enter the work force.

**ENTRY REQUIREMENTS AND ADMISSION**

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- For the Economics (QEM) Curriculum and Finance Curriculum, a certified B2-level knowledge of English is required; for the Economics and Finance curriculum, a certified B2-level knowledge of Italian and a certified B2-level knowledge of English are required.

**DOUBBLE/JOINT DEGREES AVAILABLE**

- Double degree in Economics, Econometrics and Finance (MEEF) with Aix–Marseille University (France): At the end of their studies, students obtain a Laurea Magistrale in Economia e Finanza from Ca’ Foscari University of Venice and a Master Sciences Economiques (Parcours Économétrie Bancaire et Financière) from Université Aix–Marseille.
- Double degree in Master Economie et Ingénierie Financière (MEF) – Université Paris-Dauphine (France)
- Joint degree in Models and Methods in Economics and Management – Erasmus Mundus (QEM) in collaboration with Université Panthéon – Sorbonne – Paris 1 (France); Universität Bielefeld (Germany); Universitat Autònoma – Barcelona (Spain).

**ENTRY REQUIREMENTS AND ADMISSION**

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- For the Economics and Management of Arts curriculum, a certified B2-level knowledge of both Italian and English is required.
- For the Economics and Administration of Arts and Culture curriculum, a certified B2-level knowledge of English is required.

**CURRICULA**

- Economics and Management of Arts and Cultural Activities
- Economics and Administration of Arts and Culture

**CAREER OPPORTUNITIES**

Graduates can pursue careers as managers responsible for the planning and organisation of cultural activities and events with companies, cultural institutions and government agencies. Possible career opportunities can be found in the following fields:
- Cultural projects management
- Conservation and enhancement of the arts
- Communications
- Arts management
- Economic consulting

**CONTACT INFORMATION:**

Department of Philosophy and Cultural Heritage
Palazzo Malcanton Marcorà
Dorsoduro 3484/D, Venice
campus.umanistico@unive.it
www.unive.it/degree/em3
This programme explores the role that the humanities are required to play in order to have a positive impact on our ability to tackle the global challenge of climate change and foster greater ecological awareness. The Environmental Humanities are an essential area of research capable of creating a fruitful dialogue between the natural sciences, the social sciences and humanistic culture in all its forms, and their aim is to equip you and the other leaders of tomorrow with the ability to imagine, discuss and educate others regarding a sustainable future for the Earth’s ecosystem.

To achieve this, the programme’s course of study focuses on the careful analysis of local and global socio-cultural dynamics through the application of a multidisciplinary approach that seeks to overcome the traditional dichotomy between answers to environmental problems that emerge from disciplines related to “nature” and those that emerge from considerations of “culture”.

In an era that is ever more characterised by complex multi-ethnic societies and migratory phenomena caused by climate change, the programme course addresses environmental issues from a global and intercultural perspective in order to enhance the relationship models between humans, non-human species and the biosphere that are typical of different societies, also from a historical point of view.

The history and location of Venice make Ca’ Foscari a particularly special place for the study of environmental humanities.

CAREER OPPORTUNITIES
Graduates are equipped to launch careers at both public and private institutions around the world, whether these be educational, environmental or cultural in focus. Some of the roles they are prepared to assume include:

• Environmental educator
• Environmental consultant
• Creator and curator of cultural activities
• Expert in cultural mediation and communication

ENTRY REQUIREMENTS AND ADMISSION
• Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements. They will also be evaluated on the basis of their academic history and some written work prepared on specific themes for their application in order to yield a ranked list of eligible candidates.
• A certified B2-level knowledge of English is required.

This programme provides you with an elevated qualification and specialisation in the following fields: the application of investigative methodologies and the design of recovery operations and environmental rehabilitation; the evaluation of environmental resources; the regional management and planning of coastal marine systems; the evaluation and management of climate change issues and the dynamics of the Earth system; and environmental interest technologies and cleaner products and processes. The programme offers three distinct curricula: Global Environmental Change (entirely taught in English); Control and Environmental Rehabilitation; and Evaluation and Management of Environmental Systems. The programme incorporates both laboratory and field experiments of an interdisciplinary nature and offers international internship opportunities. Upon graduation, you will have the necessary skills to assume a position as a highly qualified specialist or consultant in different industries or to work in international environmental protection.

CURIricula
• Global Change and Sustainability
• Monitoring and Environmental Rehabilitation
• Natural Capital and Ecosystem Services

CAREER OPPORTUNITIES
Graduates are highly qualified specialists capable of tackling the prevention, diagnosis and resolution of environmental issues thanks to their multidisciplinary skill set. They are equipped to assume positions of responsibility in project and facilities management. Possible career opportunities include:

• Environmental change expert
• Agriculture and forestry management expert
• Geologist
• Biologist
• Botanist
• Ecologist
• Zoologist

ENTRY REQUIREMENTS AND ADMISSION
• Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
• For the Global Environmental Change curriculum, a certified B2-level knowledge of English is required; for the other curricula, a certified B2-level knowledge of both Italian and English is required.
This programme allows you to deepen your knowledge and understanding of the languages, literatures, and cultures of European and American postcolonial countries according to the curriculum you choose: American, French, German, Iberian, Slavic and Balkan Studies.

During your studies, you will develop an advanced knowledge of the history of literary language and the culture of the studied civilisations and gain a strong competence in one of the languages that you study. Thanks to collaborations with foreign universities that allow you to obtain joint degrees or double diplomas, the programme is markedly international in nature. At the end of your degree, you can pursue further studies or assume positions in the field of Italian and international entrepreneurship in public and private institutions.

**European, American and Postcolonial Language and Literature**

Language of instruction: English or Italian

This programme is available as either a joint degree or a double degree with foreign universities.

**Contact Information:**

**Languages:**
Albanian, Anglo-American, Czech, English, French, German, Modern Greek, Polish, Portuguese and Brazilian, Romanian, Russian, Serbo-Croatian, Spanish.

**Curricula:**
Literatures and Cultures
Concentrations:
- American Studies
- English Studies
- French Studies
- German Studies
- Iberian Studies
- Slavic and Balkan Studies

**Career Opportunities:**
Thanks to the skills and knowledge the programme provides, graduates are prepared to continue their academic career with a doctoral degree or to seek employment with national or international businesses and at public and private institutions and organisations. Career opportunities can be pursued in the following fields:
- Image management and public relations consultancy
- Interpreting
- Translation
- Linguistic/philological research or consultancy
- Archives
- Libraries
- Museum curation
If you are passionate about the complex mechanisms of the global market or if you have an entrepreneurial spirit, this programme will put you on the right path. Taught entirely in English, it offers you the tools you need to engage with international markets, especially emerging ones, and to understand business growth processes in an international context. The programme gives you the opportunity to meet and learn from successful entrepreneurs and the directors of Italian and foreign companies. You can also gain international experience by applying to carry out a double degree with the École Management Strasbourg in France.

The programme provides study grants for entering the workforce thanks to the Luciano Iglesias Foundation.

This programme develops the theoretical and technical expertise you need to work in the management of public administration (local, regional, national and international) and both non-profit and for-profit organisations operating in areas of public interest. It equips you to encourage the innovation and modernisation that are so essential to our response to the social and economic changes that society is experiencing today. The curriculum helps you acquire a wide range of knowledge and expertise in economics and business, statistics and IT, law, organisation and sociology. Highly innovative teaching ensures you also acquire transferable skills by incorporating engagement and interaction with different external bodies, thereby preparing you to tackle the main innovative challenges – such as bureaucratisation, digitisation and sustainability – that public organisations are facing now or will have to grapple with in the near future. Although the programme does not focus on any one specialisation, its content is flexible, allowing students to adopt different pathways in order to carry out more in-depth study in any of the four areas it addresses (quantitative studies, economics/business, law and sociology/organisation).

**CAREER OPPORTUNITIES**

Thanks to the programme’s interdisciplinarity, graduates are able extremely independent and ready to carry out all of the tasks and professional activities required to work in institutions of public administration, supervisory and control bodies and all public and private enterprises involved with public administration. Graduates are capable of interacting with both managers and technicians operating in various areas (legal, quantitative, managerial), as well as with strategic figures and policy makers. Furthermore, they are prepared to assume coordination responsibilities or take on professional roles in senior management. Career opportunities can be sought in the following contexts:

- Public service agencies
- NGOs
- International organisations
- Economic and financial consulting
- Legal consulting
- Human resources management
- Public administration management

**ENTRY REQUIREMENTS AND ADMISSION**

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of Italian and a certified B2-level knowledge of English are required.

**CONTACT INFORMATION:**

Department of Economics
San Giobbe Campus,

campus.economico@unive.it
www.unive.it/degree/em11

This programme provides the skills you need to become a historian or a curator in an archive, library or museum by exploring the history of cultures and religions as well as anthropology and sociology. Once enrolled, you can also apply for one of the three joint degrees offered in France and Argentina. The programme equips you with a complete knowledge of reading methodologies, preparing you to analyse different types of literary, documentary, archival, iconographic and monumental materials as well as the survey techniques of studies focusing on primary sources. These skills are essential for professional training in the fields of communication, teaching and the dissemination of academic knowledge, and the programme helps to further their development with workshops organised in museums, archives and libraries.

**CAREER OPPORTUNITIES**

Graduates can employ the knowledge and skills acquired through the programme by seeking employment of a variety of kinds. Possible career paths include:

- Historian
- Museum curator
- Publisher
- Journalist or writer
- Researcher or teacher
- Archive specialist

**ENTRY REQUIREMENTS AND ADMISSION**

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of English is required.

**DOUBLE/JOINT DEGREE AVAILABLE**

Double degree with the Université de Rouen (France): At the end of their studies, students receive a Laurea Magistrale in Storia dal medioevo all’età contemporanea from Ca’ Foscari University of Venice and a Master Histoire, spécialité Sciences Historiques from the Université de Rouen. Ca’ Foscari issues a yearly call for applications for this double degree programme.
Since the conservation of artistic heritage requires a well-rounded education involving an in-depth knowledge of artistic phenomena, this programme provides you with a thorough familiarity with the history of art and artistic techniques from the Middle Ages to the modern day while enabling you to choose a specialisation based on your own personal interests. Educational activities, often taking the form of interactive seminars, equip you to carry out rich analyses of focused aspects of the history of art. The programme also gives you the opportunity to discover and gain experience in important cultural institutions through internships. And thanks to the skills the programme provides, you will be able to assume positions of responsibility in cultural heritage studies, conservation and management contexts, as well as in cataloguing, cultural event/exhibition organisation and the design of cultural and educational activities.

**CAREER OPPORTUNITIES**
Graduates are equipped to assume managerial positions at public and private institutions involved in the study, classification, safeguarding, conservation, enhancement and management of historical artistic heritage. Possible career opportunities include:
- Historian
- Art expert
- Museum curator
- Artistic director

**ENTRY REQUIREMENTS AND ADMISSION**
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

---

It is impossible to imagine a better setting than Venice for carrying out interdisciplinary studies dedicated to the exploration of the increasingly complex demands of the tourism market. This programme trains you to become an expert in the development and intercultural promotion of tourism systems and markets by building your theoretical and applied knowledge through engaging workshops and internships. Thanks to the interdisciplinary nature of the course, you acquire the skills you need to establish yourself as an expert in the international tourism market.

**CAREER OPPORTUNITIES**
Graduates can find employment with companies, tourism organisations, local governments, consortia and consulting companies operating in the tourism sector or launch out on their own as tourism entrepreneurs. They are equipped to launch a career as:
- international tourism experts
- sales managers
- destination managers
- operators and managers in agencies for both incoming and outgoing tourism with a particular awareness of the importance of cultural and language differences among market segments of tourist demand
- tourist web marketing manager
- tourist entrepreneurs with a strong inclination towards intercultural/international markets
- consultants in tourist development for businesses, business networks and tourist industries

**ENTRY REQUIREMENTS AND ADMISSION**
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.
Unique in Italy, this programme integrates translation skills, interpretation skills and a combination of Chinese- or Spanish-to-English with Chinese- or Spanish-to-Italian in the same curriculum. The degree helps you learn the techniques and methodologies employed in professional interpretation and specialised literary translation, as well as how to use IT tools for assisted translation. You will tackle the most diverse linguistic-literary and socio-cultural issues with a comparative and intercultural approach and learn to analyse and translate technical, literary, editorial and multimedia texts. You also learn how to do liaison interpreting, consecutive and chuchotage (whispered) interpreting and company visits, as well as how to manage complex technical professional projects. In addition to providing a wealth of technical skills, these activities aim to deepen your understanding of the intercultural and interlinguistic dynamics in which you will find yourself working after graduation.

**CURRICULA**

- Chinese-English
- Spanish-English

**CAREER OPPORTUNITIES**

Graduates can seek employment with international companies and organisations or translation agencies in a variety of capacities. Career opportunities can be found in a variety of fields, including:

- Interpreting
- Translation
- Cross-linguistic communication and advertising

**ENTRY REQUIREMENTS AND ADMISSION**

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written entry test in Italy that evaluates their knowledge of Italian and English as well as the focal language of the chosen curriculum.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates their knowledge of Italian and English as well as the focal language of the chosen curriculum; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of both Italian and English is required, and students must have an excellent knowledge of either Chinese or Spanish.

---

This programme facilitates the in-depth study of linguistics, philology and literature since the Middle Ages with a focus on the development of a critical knowledge of primary, literary and archival sources. There are two curricula to choose from: Medieval and Renaissance Period; and Modern and Contemporary Period. You can also apply to carry out a double degree in Italienstudien (Italian Studies) with the Goethe-Universität, which allows students to study in both Venice and Frankfurt. The programme provides you with specialised skills in linguistics and philology, archival and library science, managing and organising publishing, and cultural activities, thereby allowing you to pursue a career in the fields of production, publishing and conservation of books and journals.

**CURRICULA**

- Medieval and Renaissance Period
- Modern and Contemporary Period

**CAREER OPPORTUNITIES**

Graduates are equipped to seek employment in the teaching sector, with Italian and foreign cultural organisations and institutions and in the fields of publishing and communications. Possible career opportunities include:

- Editor for advertising
- Linguist or philologist
- Librarian
- Archive professional
- Journalist or writer
This innovative master’s programme, which is the only one of its kind in Italy, pairs an in-depth knowledge of modern Chinese with skills related to marketing, management and law, specifically focusing on the context of modern-day China. Despite having a solid theoretical basis, the economic, legal and management skills the programme helps you acquire are strictly linked to management and market scenarios in China. Maintaining the same focus, the programme’s language learning focuses particularly on sector-specific terminology related to the economic and legal spheres while the study plan as a whole is designed to tackle issues related to the growing internationalisation and globalisation of companies, entities and institutions. While the programme’s language and IT courses are taught in Italian, all of the other courses are taught in English.

CAREER OPPORTUNITIES
The programme thus prepares you to work in high-responsibility positions focused on relations with China in businesses, financial institutions and public entities. Some of the possible career avenues open to graduates include:
- Business consultant for the Asian market
- Specialist in the marketing of goods and services offered to the Chinese market
- Language consultant and interpreter specialising in business negotiations with Chinese companies
- Translator of Chinese commercial or technical media

ENTRY REQUIREMENTS AND ADMISSION
- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Chinese and English is required, and a basic knowledge of Italian is needed.

CONTACT INFORMATION:
Department of Asian and North African Studies
Palazzo Vendramin dei Carmini
Dorsoduro 3462, Venice
didattica.dsaam@unive.it
www.unive.it/degree/lm9
This programme offers you an advanced command of one of a range of foreign languages, including Albanian, Arabic, Czech, English, French, German, Italian Sign Language (LIS, including tactile sign language), modern Greek, Polish, Portuguese and Brazilian Portuguese, Romanian, Russian, Serbo-Croatian and Spanish. Depending on the curriculum you choose, you focus on a different area of study by applying an in-depth comparative approach: the themes and teaching tools for teaching Italian to foreigners and foreign languages to Italians; advanced research tools for the analysis of language disorders and linguistic acquisition in case of deafness and bilingualism; the formal analysis of language; new technologies for the study of languages and linguistics; and culture and literature in the different phases of their development and the historical-diachronic evolution of your focal language. The modules are taught in multiple languages, including your chosen language of specialisation and English. You can also strengthen your expertise in specific areas of language studies, such as the teaching of foreign languages and Italian as a foreign language, the psychology of development and learning applied to language, computer science and information processing systems in language processing, linguistic analysis of speech and deafness disorders, the most advanced linguistic theories and the study of competence and processing in typical and atypical situations (eye tracking).

  - Journalist
  - Economic systems specialist
  - Market regulation specialist
  - Economic planning specialist
  - Economic and financial consultant
Do you want to work in a business or an organisation that deals with global markets every day? Do you want to become an expert in marketing and innovation or in finance and administration to fulfil your business potential in international organisations? This programme offers three distinct curricula in the field of management studies, each focusing on a different area of knowledge and expertise, to help you achieve these goals. The Accounting and Finance Curriculum trains experts in accounting data, planning management control systems, finance strategies and auditing business risk. The International Management Curriculum equips you with the knowledge and skills required for managing businesses. The third curriculum, entitled Innovation and Marketing, provides the tools needed to plan and manage marketing and communications activities, including branding, print and online advertising and public relations. Once enrolled, you also have the opportunity to apply for a double degree with prestigious foreign university partners, such as the Universität Hohenheim in Stuttgart, Germany, and the École Supérieure de Commerce de Paris–Europe.

CURRICULA
- Accounting and Finance
- Innovation and Marketing
- International Management

CAREER OPPORTUNITIES
Depending on the curriculum, there are many different career paths a graduate can choose. Some of the most popular professions include:
- Corporate finance specialist
- Accountant
- Tax professional
- International projects/operations manager
- New market developer
- Market analyst
- Image and public relations consultant

ENTRY REQUIREMENTS AND ADMISSION
- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum.
- EU citizens must take a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of English is required.

DOUBLE/JOINT DEGREES AVAILABLE
Double degree with the Universität Hohenheim Stuttgart (Germany):
At the end of their studies, students obtain a Laurea Magistrale in Economia e gestione delle aziende from Ca’ Foscari and a Master’s Degree in Science in International Business and Economics (MSc) from the Universität Hohenheim. Ca’ Foscari issues a yearly call for applications for this double degree programme.

Double degree with the Stevens Institute of Technology (USA):
Students can obtain a master’s degree in Management at Ca’ Foscari and a master’s degree in Financial Analytics from the Stevens Institute. Ca’ Foscari issues a yearly call for applications for this double degree programme.

CONTACT INFORMATION:

Do you want to become a manager in the marketing and communication field? If so, this programme helps you acquire the communication skills you need and provides opportunities for professional development through targeted workshops and internships at marketing and communications firms. In fact, this programme complements traditional classroom lectures with a particularly long internship period in order to emphasise the importance of practical professional development and hands-on learning.

Once enrolled, you can also apply for a double degree with the École Supérieure de Commerce de Paris-Europe (if you have completed the bachelor’s degree in Economics and Business at Ca’ Foscari).

**CAREER OPPORTUNITIES**
Graduates can find employment as product managers, brand managers, category managers, sales and marketing managers of companies specialising in goods and services, account managers in advertising, market research and marketing and communications consultants. Additional career opportunities include:
- International commercialisation of goods and services
- Information technology specialist
- Communication consultant
- Market analyst
- Image and public relations consultant

**ENTRY REQUIREMENTS AND ADMISSION**
- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to the field of study.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to the field of study; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of both Italian and English is required.

---

This programme develops and hones all of the skills you need in order to explore and analyse important philosophical and epistemological issues, especially through discussion and debate. There are two curricula available: the Philosophy curriculum builds your theoretical, ethical, historical and philosophical knowledge and skills, while the Educational Counseling and Training curriculum helps you discover and explore educational training processes in a social context as well as develop pedagogical tools. Over the course of the programme, you learn how to analyse topical issues through the application of philosophical reasoning in order to evaluate the relevant aspects and cultural traditions of the sciences and the arts, and of communication and language. The programme emphasises the pairing of methodological and pedagogical know-how with practical education science skills.

**CURRICULA**
- Philosophy
- Educational Counseling and Training

**ENTRY REQUIREMENTS AND ADMISSION**
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of Italian and English is required.

---

**PHILOSOPHICAL SCIENCES**
Language of instruction: IT

**CAREER OPPORTUNITIES**
Graduates are equipped to carry on to advanced studies in the fields of philosophical and social analysis and educational counseling. They can also pursue a first-level professional master’s programme dealing with philosophy and philosophical counseling or with the science of cognition and educational training. Career opportunities can be found in the following fields:
- Education and research
- Publishing and advertising
- Human resources
- Philosophy
- Journalism
- Law
- Business consultancy
- Libraries and archives

**ENTRY REQUIREMENTS AND ADMISSION**
- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to the field of study.
- Non-EU citizens must take either an oral entry test via Skype or a written entry test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to the field of study; for more information, write to welcome@unive.it.
- A certified B2-level knowledge of both Italian and English is required.
Offered jointly with the University of Padua, this master’s degree trains you to be a religious studies specialist with a strong understanding of socio-anthropological analysis. Equipping you with the ability to interpret texts, languages, historical events and cultures, it deepens your understanding of the religions of the Mediterranean, the Middle East, India and Eastern Asia. The programme of study places special emphasis on the philological-linguistic skills fundamental to the direct reading of texts and allows for the critical study of sources in order to provide you with a thorough understanding of religions.

CAREER OPPORTUNITIES
Graduates can find employment at both public and private institutions as social workers or as experts in inter-religious relations and communications or multi-confessional social contexts. They may also assume positions of responsibility at Italian and international research centres focusing on religion or in religious publishing. Career opportunities can be sought in the following fields:

- Research on religion and theology
- Education
- Specialised publishing
- Journalism
- Public service

ENTRY REQUIREMENTS AND ADMISSION
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Italian and English is required.

If you are interested in nanotechnologies, then this programme provides you with a strong multidisciplinary training in material science, chemistry and biology that will allow you to become an expert in the design and synthesis of new bio/nanomaterials. The programme pairs lectures and laboratory classes that teach you how to prepare bio/nanomaterials, exploring their chemical-physical characteristics, properties, methods of preparation and applications. During your studies, you are given the chance to carry out an internship and learn on the job at research laboratories and companies both in Italy and abroad. Thanks to the skills and knowledge you gain from this master’s degree, you will be able to work in the technical sectors of companies that produce, market, transform or develop materials, or further your education with a doctoral degree.

CAREER OPPORTUNITIES
Graduates are prepared to work in all of the technical areas of companies that deal with the manufacturing, processing and development of both structured and functional bio/nanomaterials. Possible career opportunities include:

- Chemist
- Chemical information management specialist
- Industrial and commercial consultant
- Specialist consultancy
- Researcher

ENTRY REQUIREMENTS AND ADMISSION
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of English is required.
This programme prepares you for social work, social services and social politics by combining a high-level cultural education with advanced professional training. Over the course of your studies, you develop a strong ability to analyse and interpret social phenomena, especially inequality, social discomfort and processes of exclusion, the social “new rich” and the vulnerable groups that are generated by these contexts, the social rights of citizens and the transformation of welfare, migration and intercultural relations, questions of gender and generalisations, and participation and active citizenship as elements of social innovation. Thanks to a series of focused workshops with professionals, you acquire innovative methodologies related to social initiatives. A 250-hour internship, which you carry out either in Italy or abroad, is an integral part of the programme.

SUSTAINABLE CHEMISTRY AND TECHNOLOGIES

Language of instruction: €

This programme trains you to be a professional chemist capable of developing original ideas and designing new processes in both research and applied/industrial contexts. It employs a unique approach to the study of sustainable and green chemistry by providing you with an in-depth knowledge of the interaction between chemical production and the environment. The course of study is also markedly interdisciplinary and offers many hands-on formative opportunities, thereby preparing you to apply for both technical and academic positions in research and development, quality assurance and production control.

ENTRY REQUIREMENTS AND ADMISSION
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Italian and English is required.

CURRICULA
- Chemistry
- Industrial Chemistry

CAREER OPPORTUNITIES
Graduates are prepared to work as employees or freelance professionals in any of the departments of a modern company or at a research institute, as well as perform managerial tasks in the chemical industry (both basic and “fine”) and manufacturing. Possible career opportunities include:
- Chemist
- Chemical information management specialist
- Chemical manufacturing consultant
- Process developer
- Product designer
- Researcher
- Specialist consultant for companies and governmental agencies

WORK, SOCIAL CITIZENSHIP, INTERCULTURALITY

Language of instruction: €

This programme prepares you for social work, social services and social politics by combining a high-level cultural education with advanced professional training. Over the course of your studies, you develop a strong ability to analyse and interpret social phenomena, especially inequality, social discomfort and processes of exclusion, the social “new rich” and the vulnerable groups that are generated by these contexts, the social rights of citizens and the transformation of welfare, migration and intercultural relations, questions of gender and generalisations, and participation and active citizenship as elements of social innovation. Thanks to a series of focused workshops with professionals, you acquire innovative methodologies related to social initiatives. A 250-hour internship, which you carry out either in Italy or abroad, is an integral part of the programme.

ENTRY REQUIREMENTS AND ADMISSION
- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Italian and English is required.

CURRICULA
- Social Work
- Welfare Policies and Social Research

CAREER OPPORTUNITIES
Graduates are prepared for employment in the areas of planning, research, analysis and intervention with bodies, administrative entities and institutions operating in the fields of social work and social and health services. They may also work in the processing and implementation of social equity policies, initiatives and measures aimed at fighting conditions of social discrimination and exclusion, and in creating and developing projects for the social inclusion and integration of immigrant populations. Career opportunities can be sought in the following fields:
- Public administration management
- Sociology research
- Social work
- Social programme management
- Healthcare
- Education

WHAT IS A DOCTORAL PROGRAMME?
The doctoral degree (PhD) is the highest university qualification that a student can obtain. In Europe it generally lasts three years and involves on-campus study under close supervision as well as professional training and e-learning activities. A doctoral degree is awarded to a candidate who has submitted a thesis or dissertation that is the culmination of extensive original research in the candidate’s chosen field.

ADMISSION REQUIREMENTS
In order to be a qualified candidate, you must already have a master’s degree and a relevant academic background in your chosen field of study. You must also have a certified B2-level knowledge of the language of instruction (as per the Common European Framework of Reference for Languages, or CEFR). Depending on the doctoral programme that interest you, there may also be additional entry requirements.

HOW TO APPLY
In the spring, Ca’ Foscari puts out a call for applications providing a detailed explanation of the application and selection procedures. To be admitted to a doctoral programme, you must participate in a public selection process that entails the evaluation of their academic qualifications as well as an oral and/or written exam. This selection process yields a ranked list of eligible candidates.

SCHOLARSHIPS AND FINANCIAL AID
Almost without exception, the candidates deemed eligible as a result of the public selection process are offered a doctoral scholarship.

CONTACT INFORMATION:
PhD Office
San Sebastiano,
Dorsoduro 1686, 30123 Venice, Italy
www.unive.it/graduateschool-en
phd.office@unive.it
ECONOMICS

This doctoral programme offers advanced training in economics and finance, providing you with the necessary tools for conducting original research for your doctoral dissertation on socio-economic systems or financial markets. Various specialisations are offered with a focus on both microeconomic analyses (for example, how economic agents behave, how markets and economic organisations work, how economic policy affects economic outcomes) and macroeconomic analyses (for example, issues regarding economic cycles, unemployment, inflation, trade and forecasts and expectations of financial markets).

www.unive.it/phdeconomics

LAW, MARKET AND PERSON

This doctoral programme aims to provide you with the education and experience to become a legal expert specialised in understanding and interpreting contemporary European law as the result of the interaction between national and international factors and dynamics.

www.unive.it/law-market-person

MANAGEMENT

This doctoral degree offers an international study programme that is designed to train you in different areas of management studies, including: organisational economics and game theory, innovation and entrepreneurship, organisation theory and design, human resource skills and management, marketing, accounting regulation, strategic management, cultural management, behavioural economics, business history, corporate finance and sustainability.

www.unive.it/phdmanagement

SCIENCE AND MANAGEMENT OF CLIMATE CHANGE

This doctoral programme was established in collaboration with the Euro-Mediterranean Centre on Climate Change, a world leader in international climate change research. The programme provides you with a broad yet thorough background in economics and equips you to carry out original and innovative research on themes regarding the dynamics of climate change and the methodologies and techniques used in its evaluation and management in terms of mitigation and adaptation measures and policy.

www.unive.it/phdclimatechange

Arts and Humanities

ANCIENT HERITAGE STUDIES

This doctoral programme explores all aspects of antiquity and is designed to develop and facilitate your use of specific methodologies and techniques in the study of monuments and texts through the exploration of a broad range of themes and disciplines associated with the historical and interpretive challenges they pose.

www.unive.it/ancient-heritage

HISTORICAL, GEOGRAPHICAL AND ANTHROPOLOGICAL STUDIES

This programme is designed to prepare you with exceptional research skills for the study of the historical phenomena that have shaped European society from the Middle Ages through to present day.

www.unive.it/historical-geographical-anthropologic-studies

HISTORY OF ARTS

This doctoral degree explores the history of art in all of its possible meanings. The programme places an emphasis on the valorisation of artistic-cultural, territorial and environmental heritage.

www.unive.it/history-arts

ITALIAN STUDIES

This doctoral programme provides you with the skills and knowledge required to study Italian texts from all periods as well as works in other languages that were penned in similar historical, geographical and cultural contexts.

www.unive.it/italian-studies

PHILOSOPHY AND EDUCATIONAL SCIENCES

This doctoral programme intertwines traditionally distinct yet culturally convergent avenues of research by combining the study of philosophical reasoning with the exploration of the social, psychological, cognitive and educational sciences.

www.unive.it/philosophy-educational-sciences
CHEMISTRY

This programme provides you with a broad range of expertise that encompasses all of the chemical disciplines as well as some areas of chemical engineering and biology. Research topics range widely, from classical organic synthesis to nanotechnologies, and from green and sustainable chemistry to computational chemistry.

www.unive.it/chemistry

COMPUTER SCIENCE

This doctoral programme provides you with the formal tools necessary for rigorously developing and implementing research, making you an expert in the methodologies employed in the planning and evaluation of systems and computer systems.

www.unive.it/phdcomputerscience

ENVIRONMENTAL SCIENCES

Promoting an interdisciplinary approach, this programme equips you to explore and develop solutions to the various global issues we are facing today with respect to the environment, ecology and social development.

www.unive.it/phdeenvironmentalsciences

POLAR SCIENCES

This unique programme prepares students with in-depth scientific competencies and allows them to develop original research in order to become experts on topics related to recent and past changes to the climate and environment of the polar regions and the glaciated areas of high altitude/low latitude sites. Thanks to the employment of an interdisciplinary approach, students of the programme acquire a profound scientific understanding of the processes regulating the climate change underway in the polar regions.

www.unive.it/polarscience

SCIENCE AND TECHNOLOGY OF BIO AND NANOMATERIALS

This programme is carried out in partnership with the National Cancer Institute (Centro di Riferimento Oncologico, CRO) in Aviano, Italy. Students will have the opportunity to develop their own research projects by making use of the resources and laboratories of both the CRO and the Department of Environmental Sciences, Informatics and Statistics at Ca’ Foscari.

www.unive.it/nanotechnologies
WHAT IS A PROFESSIONAL MASTER’S PROGRAMME?
In the Italian university system, first-level or second-level professional master’s programmes (Master universitari di primo/secondo livello) involve at least one year of postgraduate specialisation or executive education and training. A professional master’s diploma requires that you acquire 60 ECTS credits.

STUDY OFFER
The Challenge School’s offerings are constantly evolving in response to the needs and interests of professionals and the workplace. Up-to-date information about what is on offer can be found online on the Challenge School’s website.

ADMISSION REQUIREMENTS
An undergraduate degree in a relevant field is required for acceptance into first-level programmes. For second-level programmes, candidates must have acquired a master’s degree in a pertinent field.

HOW TO APPLY
Every spring, Ca’ Foscari puts out a call for applications that provides all of the information regarding the application and selection procedures.

SCHOLARSHIPS AND FINANCIAL AID
Depending on the selected programme, scholarships and loans are available.

CONTACT INFORMATION:
Ca’ Foscari Challenge School
www.unive.it/challengeschool-en
master.challengeschool@unive.it
corsi.challengeschool@unive.it
FEES AND LIVING EXPENSES

Ca’ Foscari’s tuition fees are remarkably low. This is a result of both heavy subsidising by the Italian Ministry of Education, Universities and Research, which covers approximately 70% of the actual cost, and Ca’ Foscari’s belief in the need to make university affordable to all. The most you as an international student will pay for your studies is virtually the same as – or in some cases, less than – an Italian student pays. In addition, Ca’ Foscari offers a variety of forms of financial aid, including scholarships, exemption from and reduction of fees, student loans and awards for outstanding theses. For more information, visit www.unive.it/financialaid.

FINANCIAL AID

In order to make the choice of studying at Ca’ Foscari more affordable, the university offers high-achieving students the following forms of financial assistance:

- renewable fee waivers
- one-time scholarships of €5,000

For the 2020/21 academic year, 100 fee waivers and 90 scholarships are available. If you choose to apply for one or both options, you will be compared to other applicants and ranked according to various factors, including your overall academic average. For more information, and to see the calls for applications once they are posted, visit Ca’ Foscari’s online application system at apply.unive.it. Once enrolled, students from low-income families can also request financial aid from the regional government.

HOW TO APPLY

BACHELOR’S AND MASTER’S PROGRAMMES

There are multiple calls each year for admission to begin a bachelor’s or master’s degree in the following academic year. The university begins accepting applications in November and stops in late spring. For the precise dates of each call, which are determined at the beginning of the academic year, visit apply.unive.it.

STEP 1 – Preliminary online evaluation

If you have carried out your preparatory studies outside of Italy, you must begin the application process by requesting a preliminary online evaluation of your qualifications at apply.unive.it. You need to register an account and then upload high-quality colour scans of the required documents. If your chosen programme of study is taught in English, you must demonstrate your possession of a B2 level knowledge of this language (e.g., IELTS, minimum 5.5; TOEFL IBT, minimum 72). For more information about the application procedure and deadlines, visit www.unive.it/evaluation, and to learn more about language requirements, visit www.unive.it/language-requirements.

STEP 2 – Entry test for limited admission programmes

After you have passed the preliminary evaluation stage, if you are applying to a programme with limited admission, you will be required to pass an entry test. EU students must take a written test in Venice or at one of Ca’ Foscari’s registered international test centres while non-EU students must take an oral online entry test via Skype.

DOCTORAL PROGRAMMES

Each year Ca’ Foscari issues a single call for applications in the spring that provides all of the necessary details about the application and selection procedures for all doctoral programmes. To be admitted to doctoral studies, candidates must participate in a public selection process that entails the evaluation of their academic qualifications as well as an oral and/or written exam. For more information about how to apply, please write to phd.office@unive.it.

PROFESSIONAL MASTER’S PROGRAMMES

An undergraduate degree in a relevant field is required for acceptance into first-level programmes. For second-level programmes, you have to already possess a two-year master’s degree in a pertinent field. Each spring, Ca’ Foscari puts out a call for applications that provides all of the information regarding the application and selection procedures. For more information about how to apply, please write to master.challengeschool@unive.it.
The Italian academic year has two main study semesters. During the summer break in July and August, no classes or exams are held, and the university closes at various moments over the course of the year for national and local holidays.

**First semester:** September–December  
**Exams:** January

**Second semester:** February–May  
**Exams:** June

**Additional exam session:** Late August–early September

**BANK HOLIDAYS:**
- **November 1:** All Saints’ Day
- **November 21:** Madonna della Salute (Festival of St Mary of Health)
- **December 8:** Immaculate Conception
- **December 24–January 6:** Christmas Holidays
- **Late March–mid April:** Easter Holidays
- **April 25:** National Liberation Day
- **May 1:** Labour Day
- **June 2:** Republic Day

**WELCOME DAYS:**
Shortly before each new semester begins, the Counseling and Welcome Unit of Ca’ Foscari’s International Office organises Welcome Days, events devoted to international students with the goal of helping them learn about Ca’ Foscari and its services as well as begin to discover Venice. You can find out exactly when your Welcome Day will be held by checking the university website.

**First semester:** Mid September  
**Second semester:** Late January - early February
