Cross Border Transport and Mobility in the EU Issues and State of the Art

Venice, Oct. 22-23/2020

The path towards a barrier-free single European market requires a particular attention to be paid to cross-border transport. In spite of the intense commitment and actions taken by the European Union as well as by national governments and regions, much remains to be done in order to dissolve all the barriers to cross-border mobility of people. Issues are not only infrastructural, but also related to administrative and planning coordination.

The aim of the workshop is to provide a systematic analysis on what has already been done and what are the next priorities.

Scholars and practitioners are invited to submit their researches on the general subject highlighted above.

This includes (non-exhaustive list of topics):

- The state-of-the-art of EU cross border transport policy
- Indicators of sustainability and accessibility in cross border transport
- The impact of cross border mobility on economic growth and equality
- Best practices in cross border mobility
- SUMP development and cross border integration in urban mobility: policies and practices
- The impact of cross border transport on cohesion
- People attitude and behavior towards cross border travels
- Models and Patterns for Providers and Networks

Important deadlines

- **Deadline for Extended Abstract submission: March 29th**
- Notification of acceptance / rejection: April 13th
- Notification of the provisional workshop program: April 30th

- **Deadline for full paper submission: August 31st**

PLEASE NOTE: Extended Abstract and Full Articles must be sent in ENGLISH language.

- **Registration deadline: August 31st**

The participation to the workshop is free of charge but the registration is compulsory.
