The SIGN-HUB project in numbers

- **48 months (2016-2020)**
- **10** project partners
- **7** countries (France, Germany, Israel, Italy, Spain, The Netherlands, Turkey)
- **4** main goals: grammars, linguistic atlas, assessment tests, digital archive
- **1** digital platform where the project contents will be accessible to all

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 693349.

The SIGN-HUB project (2016-2020)

Preserving, Researching and Fostering the

**LINGUISTIC**

**HISTORICAL**

**CULTURAL**

Heritage of European Deaf Signing Communities with an Integral Resource
The SIGN-HUB project will soon release a digital and interactive platform containing innovative resources for the preservation of the cultural and linguistic identity of signing Deaf communities in Europe.

- **GRAMMARS** of 6 sign languages (LSC, DGS, LIS, LSE, TID and NGT) including linguistic descriptions, visuals, hyperlinks
- **ATLAS** of linguistic structures of the world's sign languages containing more than 100 linguistic features
- **ASSESSMENT TOOLS** for the diagnosis of linguistic deficits in clinical populations of signers
- **DIGITAL ARCHIVE** of 137 interviews with Deaf elderly signers from 5 different countries about their historical memories

**Where are we now?**
- The descriptions are almost ready. We will soon upload all the contents onto the digital platform.
- The Atlas questionnaire is ready to be sent worldwide to collect information from sign language experts.
- We are working on the validation of the lexical and syntactic tests to ensure they are well formed and reliable.
- We are creating a documentary movie and an edited volume based on the collected interviews.
