3. Future updates

During the second Steering Committee in September 2016, the website contents, appearance and structure were discussed. Several suggestions raised during the meeting in order to improve the appearance and navigability of the website and the clarity of its content. Therefore, in the next months the website will change considerably. The improvements proposed during the Steering Committee meeting were the following:

- Add videos with the text translated into International Sign.
- Review the aims' and work packages' explanations.
- Include all participants collaborating with the SIGN-HUB project.
- Present participants in a table instead of presenting them in a vertical list.
