VSM role	Project partner
Budget (total)	€ 4.956.2675
Budget assigned to Ca' Foscari	€ 98.000,00
Project number	621037
Abstract	<p>Europeana Space is a European project that aims to create new job opportunities and economic growth in the creative industries sector, based on the rich European cultural resources available in digital format. Underlying the project is the concept of collecting and creatively reusing European digital cultural assets in the following six relevant areas: television, photography, games, open publishing, museums, and dance.</p> <p>The project seeks to support creative SMEs to develop their services and applications through marketing and business modeling support, mentoring activities and incubation services, both through participation in project events and online networking.</p>
