Abstract	<p>The Venice of Management is one of the partners of the NANO-REGION Project (INTERREG ITALY-SLOVENIA - Call 5/2018 - Strategic Project Proposal - IP 1b theme 1). The project aims to develop a network of research centers and parks with a nanotechnological vocation focused on promoting technology transfer. The network, aimed at businesses, will provide access to enabling technologies and help create a new culture of 'innovation, through a program of targeted open events, an advisory service and feasibility studies, responding to the needs expressed by individual companies and stimulating the creation of new products, markets and businesses.</p>
